CHAIRMAN'S REPORT

MY FELLOW SHAREHOLDERS,

The 2017 Financial Year was another successful year for Derrimon Trading and represented our first year presenting Group Financial Statements further to the acquisition of an additional 26% holding in Caribbean Flavours & Fragrances bringing our total ownership to 75% thus, making it a subsidiary of Derrimon Trading. Our company continues to seek ways to enhance our customer experience, forge greater synergies with our suppliers, and improve efficiencies throughout the organisation.

The Group reported a net profit of \$282 million, from revenue of \$6.7 billion, representing a 143% increase over the previous year. Meeting financial objectives is always important for us but these cannot be achieved without having talented and committed team members with the right attitude. The 2017 result was largely due to the continued commitment of our valued team members.

All the respective divisions of the business continue to lay the foundation to position the Company to capitalize on market trends and opportunities. The distribution division historically seeks new products to enhance the portfolio and this year we entered the market as a distributor of packaged sugar. Our retail division added two new stores in the form of Sampars Cross Roads (formerly Empire Supermarket) and Select Grocers, which represents a new brand of high-end supermarket located in Manor Park. These additions, as well as improved offerings from the existing stores, resulted in significant growth in the retail space.

We continue to evaluate and improve the services of our webstore, www.shopsampars.com, in order to offer an enhanced experience to our customers. We are very excited about the future of this channel.

Caribbean Flavours & Fragrances, a leading player in their industry, has invested heavily in research to widen its product offering in both flavours and fragrances which we expect will be in high demand from manufacturers.

For 2018, the Group will build on its foundation to distribute further down-market, expand its market share across all divisions, invest more in recruitment and human capital, and endeavor to offer an exceptional customer experience. On behalf of all the team members of Derrimon Trading, we thank you for your continued support and embrace the opportunity to take your Company to the next level.

DERRICK F. COTTERELL
Chairman and Chief Executive Officer

NOTICE OF ANNUAL GENERAL MEETING

NOTICE IS HEREBY GIVEN THAT the Annual General Meeting of DERRIMON TRADING COMPANY LIMITED (the “Company”) will be held on August 22, 2018 at 10:00a.m. at the Knutsford Court Hotel to consider, and if thought fit, to pass the following resolutions: -

ORDINARY RESOLUTIONS 1 – 4

1. To receive the audited accounts for the year ended 31 December 2017.

Resolution 1 – Audited Accounts

“THAT the audited accounts for the year ended 31 December 2017 together with the reports of the directors and auditors thereon be and are hereby adopted.”

2. TO ELECT DIRECTORS

The Directors retiring by rotation pursuant to the Articles of Incorporation are Monique Cotterell, Ian Kelly, Winston Thomas, Paul Buchanan who being eligible offer themselves for re-election.

Resolution 2a – Re-appointment of Monique Cotterell

“THAT the retiring Director, Monique Cotterell be re-elected a Director of the Company”

Resolution 2b – Re-appointment of Ian Kelly

“THAT the retiring Director, Ian Kelly be re-elected a Director of the Company”

Resolution 2c – Re-appointment of Winston Thomas

“THAT the retiring Director, Winston Thomas be re-elected a Director of the Company”

Resolution 2d – Re-appointment of Paul Buchanan

“THAT the retiring Director, Paul Buchanan be re-elected a Director of the Company”

3. TO FIX THE REMUNERATION OF THE DIRECTORS

Resolution 3 – Directors’ Remuneration

“THAT the Board of Directors of the Company be and are hereby authorised to fix the remuneration of the individual directors.”

4. TO RE-APPOINT AUDITORS AND FIX THEIR REMUNERATION.

Resolution 4 – Re-appointment of Auditors

“THAT McKenley & Associates, Chartered Accountants, having agreed to continue in office as Auditors of the Company, be and are hereby re-appointed Auditors of the Company to hold office until the next Annual General meeting at a remuneration to be fixed by the Board of Directors of the Company.”

SPECIAL BUSINESS: RESOLUTIONS 5 -7

5. As special business to increase the authorised share capital of the Company to give the Company enough shares to carry out a sub-division.

Resolution 5 – Increase of Authorised Share Capital

“THAT the authorised share capital of the Company be increased from 800,400,000 shares to 8,200,400,000 shares by the creation of an additional 7,400,000,000 ordinary shares each ranking pari passu in all respects with the existing ordinary shares or stock units in the capital of the Company.”

6. As special business to sub-divide the issued share capital of the Company

Resolution 6 – 10:1 Stock Split

“THAT each of the issued ordinary shares in the capital of the Company be subdivided into 10 ordinary shares with effect from the close of business on August 22, 2018 resulting in the total issued shares in the capital of the Company being increased from 273,336,067 ordinary shares of no par value to 2,733,360,670 ordinary shares of no par value.”

7. As special business to convert ordinary share capital to stock units upon issuance and allotment in order to facilitate listing on the Jamaica Stock Exchange.

Resolution 7 – Conversion of Ordinary Shares to Stock Units

“THAT all ordinary shares in the capital of the Company once issued and allotted as of the date hereof and at any time hereafter be and are hereby converted into stock units.”

Dated the 7th day of June 2018

by Order of the Board

MONIQUE COTTERELL,
Company Secretary

NOTES:

- (1) A member entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and vote in his place. Such proxy need not be a member of the Company.
- (2) A member must lodge his Proxy Form with the Secretary at 235 Marcus Garvey Drive, Kingston 11, **not less than 48 hours** before the Meeting, but if not so lodged it may be handed to the Chairman of the Meeting.

Tania Waldron-Gooden is the Director of Investment Banking at Mayberry Investments Limited. She is also a member of the Board of Directors for Mayberry.

As the Mentor to Derrimon Trading, her responsibility is to provide the Board with support in establishing proper procedures, systems and controls for its compliance with the Junior Market rule requirements for financial reporting, good corporate governance, and the making of timely announcements.

She holds a Bachelor of Science degree in Geology from the University of the West Indies and a Master of Business Administration degree from the University of Sunderland in the U.K.

DIRECTORS' REPORT

as at December 31, 2017

The Directors of Derrimon Trading Company Limited now present their report for the financial year ended December 31, 2017. This report marks the fifth (5th) anniversary since our historic listing on the Junior Market of the Jamaica Stock Exchange as well as a year that our Company achieved many firsts which includes the successful operations of two (2) new retail stores and the purchase of additional shares in Caribbean Flavours and Fragrances Limited.

FINANCIAL RESULTS

The Statement of Comprehensive Income shows profit after tax of \$204.32 million net of taxation for the Company and \$281.80 million for the Consolidated Group. During this financial year, the Company continued with the diversification and strengthening of our revenue sources, refinanced the major US dollar debt as well as executed, within time and budget, the refurbishing and operation of two (2) new retail stores. We strategically procured an additional 26% shares in Caribbean Flavours and Fragrances Limited, making this Company a wholly owned subsidiary of the Derrimon Group. Our Board remains extremely proud of the steadfast execution of these strategies within this financial year and look forward to the financial gains based on the projections.

During the year, the Company issued a \$250 million dollars new private placement note at an attractive coupon rate of 10%, the proceeds of which were used to fully liquidate other higher costing US dollar and Jamaican dollar debt and also assisted with the financing of the retail expansion plan. It should be noted that the average Jamaican dollar debt cost was reduced from a high of 12.25%, at the start of the year, to 10.125% given this new 10% note and the

WATBY based interest rates applicable to the preference shares. Our track record for the settlement of our debt on or before due dates and the performance of our stock price are important attributes which continue to aid our success.

DIRECTORS

The Directors of the Company as at December 31, 2017 are:

DERRICK F. COTTERELL

Chairman and Chief Executive Officer

MONIQUE COTTERELL

Executive Director/Company Secretary

IAN C. KELLY

AUDITORS

The auditors of the Company, McKenley & Associates of 12 Kingslyn Avenue, Kingston 10, Jamaica have expressed their willingness to continue in office. The Directors

recommend their reappointment.

THANK YOU

We wish to extend our special thanks to all shareholders and bondholders for the confidence that you all continue to express in Derrimon Trading Company Limited. We

look forward to a mutually rewarding relationship for the coming year and beyond.

We acknowledge and extend our appreciation to the committed efforts and hard work of the members of staff and thank our customers, suppliers, consumers and all other stakeholders for your continued support.

CORPORATE GOVERNANCE

as at December 31, 2017

Derrimon Trading Company Limited has evolved into one of Jamaica's leading distributors of bulk dry and cold storage commodities. Through our subsidiaries, we are engaged in wholesale and retail distribution and the final sale of consumer items, as well as the manufacturing and distribution of flavours and fragrances. Derrimon Trading Company Limited markets its products through a chain of eight (8) outlets including seven (7) under the Sampars brand and one under the Select Grocers brand as at the end of the 2017 financial year. In addition, we engage in logistics support, as well as warehouse and cold storage facilities.

During the financial year, we increased our shareholdings in Caribbean Flavours and Fragrances Limited from 49.2% to 75.25% making that Company a wholly owned subsidiary of the Derrimon Trading Company Limited Group. That process in itself required approval firstly from the Board of Directors' and thereafter the Company's full compliance with the Takeover Rules of the Jamaica Stock Exchange (JSE) and the Financial Services Commission (FSC). We were extremely satisfied by the fact that our Company complied with all these rules and that the necessary approvals were granted by the regulators thereby allowing for the purchase of the remainder of the 26% of the Shares of Caribbean Flavours and Fragrances Limited.

We continue to operate our business in an ethical manner and uphold the highest standards of integrity and fairness which are our core values. Despite the ever-evolving business environment, our conduct and interaction with the regulators, our peers, customers and suppliers mirror the corporate governance standards published by

the Jamaica Stock Exchange and The Financial Services Commission.

Our Board of Directors approved Company Charter was not updated during the year but continues to be relevant and details the functions and responsibilities of the Board as a whole, individual Directors, and the Chairman. The provisions of this Charter are consistent with the requirements as contained in the Companies Act 2004, the regulations of the Jamaica Stock Exchange, the Articles of Incorporation of the Company and those governing the relationships between the Board and its Committees. The Board remains accountable to its shareholders for the overall performance of the Company and the proper management of daily operations. The Board performed the following adjudication and approval duties during the financial year under review. These include:

REGULATORY/LEGAL REQUIREMENTS

- Interim and preliminary financial results.
- Interim dividends and the recommendation of any final dividends.
- Annual Audited Financial Statements and any Summary Financial Statements of the Company.
- Receipt of declaration on interest from Directors.
- Acquisition and major expansion of the business.

APPOINTMENTS AND TERMS OF REFERENCE

- Appointment and removal of Directors.
- Determination of the independence of any Director and research on the background on any proposed Director.
- Established the scope of work and authority for the position of Chief Executive Officer and Chief

Financial Officer.

- Approval of the terms of reference of all Board Committees.
- Approval by the Chairman and Executive Directors of the remunerations and terms of appointment of Non-Executive Directors

APPROVAL OF THE STRATEGIC PLAN AND ANNUAL BUDGET

- Approval of any significant changes to Company policy on financial and non-financial risk
- Review and approval of any material changes to the Company's insurance cover and other significant and potential risks relating to the Company
- Annual review of the effectiveness of the Company's internal control system.
- Approval of, on the recommendation of the Audit Committee, the Audit Engagement Letter.

OTHERS

- Approval of any substantial transaction as defined by the Jamaica Stock Exchange Listing Rules or any substantial capital and revenue expenditure, including any acquisition or disposal of financial assets
- Approval of the provision of any guarantee, indemnity or security of the Company.
- Approval of all changes to the issued share capital within the Authorized Share Capital as approved by the shareholders.
- Approval of the issue or repayment of any share capital or debt securities or any other borrowings by the Company other than where such issue, repayment, subscription or borrowing is in the ordinary course of business and has been approved as part on the Company's Business Plan.

BOARD SIZE AND COMPOSITION

The fundamental objective of good governance is to ensure transparency and accountability. In an effort to continue to protect our shareholders and stakeholders' value we have upheld and zealously protected these principles. The Company remains committed to ensuring that the composition of the Board continues to comprise Directors who bring the best mix of expertise and skills with wide-ranging knowledge in order to assist in the

various deliberations and decision-making processes. The full Board continues to review the size and composition of the Board, define the desired profile of any new candidates for selection and assess candidates skills based on their qualifications and background.

Our Company continues to be led by its Executive Chairman, Derrick F. Cotterell who is primarily responsible for the activities of the Board and its committees and remains the spokesman for the Board whilst presiding over the Annual General Meeting.

During the year, one personnel change was made to the Board's structure with the retirement of Mr. Winston Thomas as Chief Operating Officer and as an Executive Director in March 2017. Mr. Thomas is now a Non-Executive Director whilst continuing to serve on the Board's Compensation Committee.

BOARD COMPOSITION

As at December 31, 2017, the Board consisted of eight (8) members; three (3) Executive Directors including the Executive Chairman and five (5) Independent Non-Executive Directors. The Board continues to have a very good balance of skill sets which are aligned with the requirements of the Company. These talents also provide essential corporate oversight and the requisite governance essentials for the policy direction of this organization.

Below is a synopsis of the duties and responsibilities of Board sub-committees.

GENERAL - Board efficiency and effectiveness, general management with P&L responsibility, banking, debt and equity financing.

GOVERNANCE - Understanding of the legal, ethical & fiduciary duties, risk management, compensation and audit Committee.

TECHNICAL - Supply chain management, sales, marketing and customer service, down trade and retail sales.

INDUSTRY EXPERIENCE - Logistics, distribution, international trade, foreign exchange leveraging.

The Company continues to benefit from the sterling contribution of its Mentor, a requirement of the Junior

Market Rules of the Jamaica Stock Exchange, who also served as a Non-Executive Director. The Board Charter requires that the Board meet at a minimum of six (6) times annually. Meetings are scheduled in advance according to an annual Board calendar.

Meetings are held at the Company's Head Office at 235 Marcus Garvey Drive, Kingston. The agenda for meetings is prepared by the Executive where standing items include the minutes, CEO Report, operating report from divisions and associated company, committee minutes and reports as well as all compliance updates. Submissions, which require Board approval, are circulated in advance of committee and board meetings to allow for review and consideration. The Board has direct access to the Company executives and management, and independent advisors if the need arises. Selected member(s) of the senior management team are often invited to Board meetings and provide updates on respective areas of focus and responsibilities.

Derrimon Trading Company Limited has established policies and procedures to ensure timely and full disclosure of all material matters concerning the Company to the relevant authorities. The Company also ensures that investors have access to information on the Company's financial performance. These policies and procedures address areas of materiality of any matter and the impact that such matter may have on the price of the company's stock.

During this financial period, board meetings were held and the attendance of each member is outlined in the table below:

BOARD MEMBER	MEETINGS ATTENDED
Derrick Cotterell	8
Monique Cotterell	8
Winston Thomas	6
Ian Kelly	7
Earl A. Richards	6
Alexander Williams	4
Tania Waldron-Gooden	5
Paul Buchanan	3

BOARD COMMITTEES

The Board has specific responsibilities and one of such is its responsibility for the oversight of management on behalf of stakeholders. In order to discharge some of these responsibilities more effectively, the board has appointed two (2) committees from among its members, chaired by non-executive directors, which operate under specific terms of reference. These two committees are:

- The Audit and Finance Committee
- The Compensation Committee

The committees are required to promptly update and inform the Board of any actions that it has taken and of any major development that it has become aware of. The members of these Committees have access to pertinent information for decision making and all Directors have access to the records of all committee meetings.

THE AUDIT COMMITTEE

The audit committee appointed by the Board, provides guidance and oversight on financial and strategic matters relating to the Company's core operations. The primary role of this committee is to:

- Provide direct interface between internal and external auditors and the Board,
- Review and approve the audit plan and fees from external Auditor, McKenley and Associates, and make recommendations for Board approval,
- Review the effectiveness of internal controls over financial reporting and financial risk management,
- Consider risk areas identified and incorporated for attention into the internal audit plan,
- Receive and consider the audit report and management letter from McKenley and Associates.
- Review and report to the Board on compliance with regulatory disclosures and the filing and payment of all statutory taxes and obligations.

Our external auditors remain McKenley and Associates Limited; the Company also has in its employment a team of professionals that undertake its internal audit functions with a focus on inventory on a daily basis and periodic cash validation at all locations. Chaired by Mr. Earl A. Richards, the other members include Mrs. Tania

Waldron-Gooden and Mr. Ian Kelly.

The committee meets quarterly and continues to be guided by its established terms of reference to ensure:

- Timely disclosures
- Open and accurate financial reporting, good fiscal discipline.
- Review of Internal Audit Reports and management action plans.
- Review and recommend quarterly unaudited financial reports and annual audited reports to the Board; and
- The independent auditor's qualification and independence.

During the period under review, the committee met 5 times. There were no known reported incidents of fraud or any reported irregularities during this reporting period.

AUDIT COMMITTEE MEMBER	MEETINGS ATTENDED
Earl A. Richards	5
Tania Waldron-Gooden	3
Ian Kelly	5

THE COMPENSATION COMMITTEE

This committee has responsibility for providing recommendations to the Board in regards to the remuneration strategy, policies and practices applicable to the compensation of the Executive Chairman, Executive Directors, Non-Executive Directors and Senior Managers. The committee is chaired by Mr. Alexander Williams, and includes Mr. Winston Thomas and Mrs. Monique Cotterell. The terms of reference require that:

- The committee meet at least once per year to evaluate the performance of the Executive;
- Review any matters relating to compensation and benefits;
- Make its recommendation to the full Board of Directors.

This committee did not meet during the period under review as there were no agenda items which required a meeting.

RISK MANAGEMENT

The management of the various identifiable risks and ensuring that the systems and policies are strictly adhered to remains an important aspect of our Company's operations. We understand and recognize that rigorous risk management is vital to the stability of the Company and for maintaining our competitive edge within the market space in which we operate. The robust risk management approach taken by our company includes:

- Establishing and maintaining practices that foster a culture within the Company in which personnel at all levels are aware of the relevant policies and support high standards of performance and accountability.
- Adoption of an integrated approach to risk management whereby risk management forms part of all key organizational processes.
- Safeguarding of the Company's assets namely human, property, reputation and intellectual.
- Rewarding the achievement of the Company's strategic and operating plan through an effective balance of risk and reward.
- Rigorous compliance with statutory and regulatory obligations

The Board has full responsibility for the Company's internal control system and for monitoring its effectiveness through various established committees. The systems are designed to recognize and manage risk whilst identifying areas, which require continuous attention. Based on these inherent risks, we can only provide a reasonable assurance against material misstatements with respect to the fairness of the Audited Financial Statements. The Board has established a continuous and robust process for monitoring, identifying, evaluating and managing the significant risk that the Company faces. The Audit Committee provides the oversight for this function. The key areas of the internal controls include:

- The assignment of specific aspects of the Company's operation to members of the Executive Management Team. The team meets on a weekly basis and is responsible for operationalizing overall strategy and for reviewing the outputs of these strategies within the framework of the policies and procedures of the Company. The outcomes are submitted to the Board and Board

Committee for deliberations.

- There continues to be an established system for the segregation of duties of members of the organisation, established authorization limits for expenditure, contracts, IT application and interfaces as outlined in the Delegation of Authority Limits.
- Performance review at the executive team level; at this juncture actual outcomes are reviewed with forecast, budgets and prior reporting year data assessed.
- Periodic reviews of identifiable risk through product cycle counts and annual reviews during the annual audit and confirmation exercise.

As a result of the growth of the retail division of the Company and the increased levels of SKU's which is involved, increased levels of inventory monitoring from purchasing to auditing becomes a routine part of our daily operations. The internal inventory audit team was increased as well as the frequency of the ongoing cycle counts at all locations. These investigations ensure that we have current and timely knowledge of the value of our inventory on a real time basis for each retail location. Any issues identified are investigated and all outstanding items form a part of the quarterly report to the audit committee.

Annual General Meeting of Shareholders

The Annual General Meeting (AGM) of the Shareholders remains the Company's highest decision-making body. It decides the duties for which it is responsible in accordance with the Companies Act 2004 and the Company's Articles of Incorporation. The AGM decides on, among other things, the adoption of the financial statements and the consolidated financial statements contained therein and the approval of dividend payments. It is at the AGM that Members of the Board are elected and auditor's remunerations are approved. Other matters such as the amendments to the Articles of incorporation, share issues and any acquisition of the Company's own shares are approved.

MANAGEMENT DISCUSSION & ANALYSIS

COMPANY OVERVIEW

The financial year ending December 31, 2017, saw the continued implementation of the Company's five-year strategic and operational plans, that ultimately improved the financial performance, solidified the foundation and asset base, and accelerated and diversified various revenue streams. 2017 was a notable year for the Company as the following were achieved:

- The purchase of an additional 26% of the shares of Caribbean Flavours and Fragrances Limited (CFF) increased the Company's shareholding to 75.02%. This position ensured the reclassification of CFF from an Associated Company in 2016 to a subsidiary of Derrimon Trading Company Limited (DTL).
- The sale of 13% of the Shares in Caribbean Flavours and Fragrances owned by DTL at a profit.
- The purchase of the assets of ChrisRyon Limited, operators of Empire Supermarket and the rebranding of that store to Sampars Cross Roads Supermarket.
- The purchase of the assets of Caribbean Home Entertainment Systems operators of Carihome Supermarket and the full refurbishing and rebranding of that store to Select Grocers.
- Liquidation of significantly higher cost US Dollar denominated loans and the replacing of those loans with a Jamaican Dollar denominated facility at a more competitive rate.

During this financial year, key areas of focus were to

improve the profitability of the two (2) operating divisions, while ensuring the Company remained relevant in the markets that it serves. Several significant milestones were achieved during the period:

- Improved procurement and logistics timelines.
- Culling of products that did not achieve the desired and established hurdle rates of return.
- Consolidated and centralized the procurement process for the Sampars retail division.
- Refurbished and rebranded two (2) new retail stores at Manor Park and Cross Roads within budget. These two (2) new locations, which serve two (2) different segments of the market, are important in raising brand awareness and building positive brand equity.

We remain very proud of our continued evolution and growth over the past ten (10) years and remain confident that the strategic acquisitions within the retail space have resulted in achieving many of the established objectives in the Company's strategic plan. We will continue to explore other opportunities that are complementary to our strategy, as we build on the foundation of the Company's strategic plan.

We continued the journey to further deepen the relationship and diversify the customer base in the various market segments that we serve, using an efficient and sustainable cost structure.

The Marcus Garvey Drive and Brome Close Distribution Centre continue to be the nerve centre of the distribution

CLOSING STOCK PRICE

6.45	7.5	8.51	8.2	8.75	8.05	8.00	7.9	7.99	7.00	7.00	7.91

business, serving customers throughout the fourteen (14) parishes. There were challenges with periodic market glut and scarcity of key products during the review period, but the adverse effects were mitigated by astute purchasing and inventory management. Importantly, the Company continued to implement its strategy of ongoing product rationalization and cost management.

The focus of the retail division, which operates at eight (8) strategic locations in five (5) parishes namely Kingston, St. Andrew, St. Catherine, Manchester and St. Ann, was to improve efficiency by way of systems integration and technology upgrades. Specifically, in the areas of procurement, inventory management, and internal controls. These objectives were achieved through the implementation of a centralized purchasing structure and rigorous inventory monitoring and controls.

It is evident that the decisions taken by the board to broaden and diversify the revenue base of the Company; thereby increasing revenues and enhancing profitability have not gone unnoticed by the investing public. Accordingly, the DTL stock price continues to reflect increased investor confidence and a positive outlook. The stock closed the financial year at \$7.91, up 43% from its close price in December 2016.

BUSINESS REVIEW

The 2017 financial year yielded positive financial and operational results for the Company. Important factors that guided these results were innovation, customer centricity, and pricing sensitivity.

The continued increase and sometimes fierce competition within the commodities goods market, an influx of unregulated suppliers and increased levels of down-trade marketing from many of our major suppliers have influenced some of the decisions made to further realign the DTL business model. As such, the continued removal of unprofitable SKU's, further elimination of some product lines, and reduced imports of uncompetitive cold storage products were intentional tactics and have proven to be profitable initiatives undertaken during the year.

The approach taken for the acquisition of the various

growth initiatives in 2017 was different, in some respects, from that which was done in previous years. The Company immediately refinanced its higher costing US Dollar debt in the first quarter of 2017 with the issuance of a Jamaican Dollar security at a more cost-effective rate. This strategy reduced the unpredictable foreign exchange risk, lengthened the maturity profile of our debt portfolio, as well as provided a mix of financing that is in line with market trends.

Whilst these activities were being pursued, the Company remained focused on its long-term capital debt financing strategies. Actions taken are as follows:

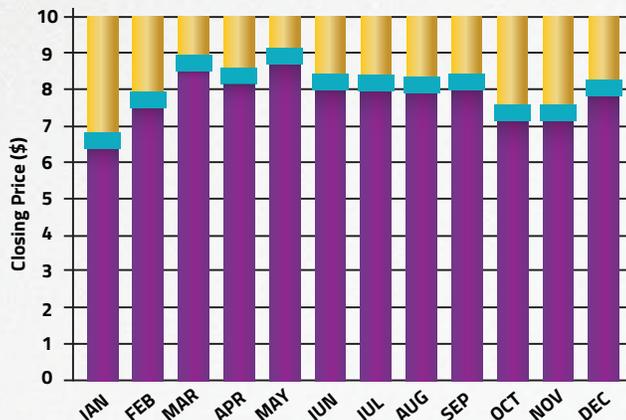

- Increased equity stake in Caribbean Flavors and Fragrances Limited.
- Expanded footprint within the Sampars Cash and Carry retail business.
- Purchased the existing assets of Caribbean Home Entertainment Systems limited, operators of Cari-Home Supermarket in Upper Manor Park, St. Andrew.
- Fully refurbished and created a new supermarket brand known as "Select Grocers".
- Used Joint Venture Agreements as an effective method of financing and as a key growth strategy.

During the year, there was a 2.1% appreciation of the Jamaican Dollar against the United States Dollar. Improved policy measures by the Bank of Jamaica aimed at controlling currency devaluation, namely BREXIT, along with controlled increases in oil prices on the international market led to the rather benign outcome. Inflation also came in at a modest estimate of approximately 4.4% over the review period. Economic growth for the calendar year came in at approximately 1.0%. The government had earlier targeted the figure to come in at about 2.4%. The reduced outcome was due to lower than expected output from Agriculture, Bauxite Mining and Quarrying and the slower than anticipated pace of the build-out of the logistics hub.

The appreciation of the currency is a welcomed break for DTL given that it continues to import large volumes of staple commodities. Steps taken by DTL to realign its

financing contracts would have eased the negative effect of US Dollar devaluation, however, the relative stability brought on by the BOJ measures was timely for business. It is duly noted however, that whatever the devaluation or appreciation of the currency, DTL continues to pay keen attention to the management of logistics, demurrage costs, credit risk and receivables to ensure efficiency within the purchasing chain, inventory management, and collections.

DTL Stock Price Movement FY 2017
Stock Price \$7.91 ending December 31, 2017

DTL experienced growth in both profitability and revenue generation for the financial year. The purchase of the assets of Chris Ryan Limited and the rebrand of the former Empire Supermarket, located at 1-3 Retirement Road, to “Sampars Cross Roads Supermarket” in the first quarter of the year, represents an important, profitable and strategic move. DTL finalized a Joint Venture Agreement which allowed it to complete the purchase of the assets of Caribbean Home Entertainment Systems Limited, the former operators of Carihome Supermarket Limited, and rebrand the operations under the Select Grocers brand. Jamaica Gold Packaged Sugar was added as a part of the set of products distributed by DTL having been appointed distributors by Jamaica Cane Products Ltd.

The Company’s strategy of focussing on higher yielding products while shedding low margin commodities and commodities that do not meet the required threshold has borne fruit. Operating expenses climbed somewhat due to the addition of two new stores as well as associated utilities, marketing expenses, scheduled repairs and maintenance of equipment, and staff increases. Although these moves may have increased the nominal amount of expenses, profitability margins were improved year-over-year.

FINANCIAL PERFORMANCE

The Company’s financial performance for the reporting period ending December 31, 2017, continued to be positively influenced by a combination of strategies that have been employed. Despite not being able to include all the additional cost associated with changes in government policies during the year in our pricing policy to our consumers, the Company recorded growth in many key areas. The improvement in the contributions to the business in all areas from Sampars Cash and Carry, Outlets and Supermarkets continued to soar in both margins and revenue and the diversification and distribution portfolio performed well despite the continued culling and rebalancing that was evident during the year.

Gross operating revenue generated by the Company at the end of December 31, 2017, was \$6.723 billion, an improvement of 8.9% when compared to the \$6.176 billion reported for the similar period in 2016. The strategies implemented within the retail stores were deliberate and carefully executed. The daily monitoring of the respective categories at each store against the expected budget performance was a critical success factor to ensure the desired objectives were achieved. Corrective actions and programs were implemented based on the assessment of the location managers and buy-in of the executive team. The implementation of the identifiable micro and macro strategies, aimed at increasing share of wallet spent in specific operating regions, continued to be critical success strategies within the retail space. We continued to be encouraged by strong business partnerships within the retail space and attribute this to superior customer service - the foundation of our growth.

The revenue performance within the distribution segment was \$2.42 billion, which represented a 16% decline when compared to \$2.88 billion reported in 2016. This decline was again deliberate and was driven by the core objective of distributing goods which bring value to the business in terms of a positive contribution to gross profit, and that allows for a positive contribution at a minimum hurdle rate to its net profit. As such, decisions taken by the Company to cull the distribution of some categories of products, and in some instances to reduce the sale of some products at a specific point in time that were not meeting the above objectives, were deliberate. As noted, overall revenue was up; this was driven by a \$635 million increase in revenue from the Sampars supermarket segment. Revenues

came in at \$3.92 billion in 2017 compared to \$3.29 billion in 2016.

The growth of the Company's financial metrics is a result of the strategic approach – maximize revenues while growing market share profitably. The overall gross revenues posted is evidence that the team maintained its focus on the implementation of strategies that continued to add to shareholders' value, even in the competitive environment. The strategies identified for both divisions were deliberate and continued adjustments through careful monitoring ensured that the desired objectives were achieved.

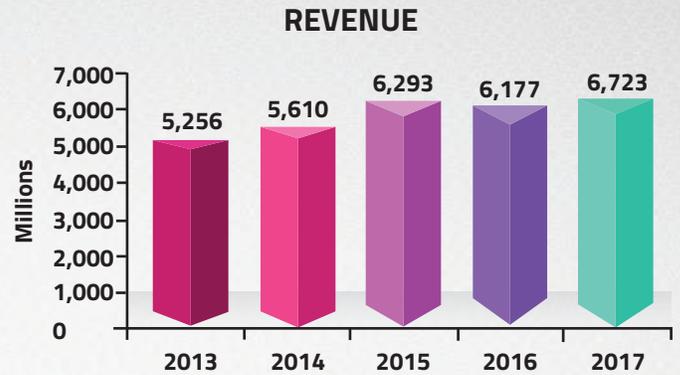

Our supply partners continue to play a critical role in our Company's success and the gains made, in this area during this financial year, were significant. The improvements in logistics and the management of the supply chain ensured that the ratios of the cost of sales to revenue were improved during the reporting period.

REVENUE

The Company's performance for the year ended December 31, 2017, reflected continued growth but specifically within the retail division of the business. The growth was driven by two (2) factors: continued improvement and efficiency within the existing stores, and the addition of two (2) stores. These activities boosted revenue. For this reporting period, trading income increased year-over-year to \$6.35 billion relative to \$6.18 billion reported for the similar 2016 financial year. This growth was influenced by a \$633.38 million year-over-year increase in the performance of the retail division, moving its revenue to \$3.92 billion when compared to the \$3.29 billion reported in the financial year 2016. It should be noted also that while this improvement is positive; the introduction of the Select Grocers contribution was only for nine (9) months of the financial year.

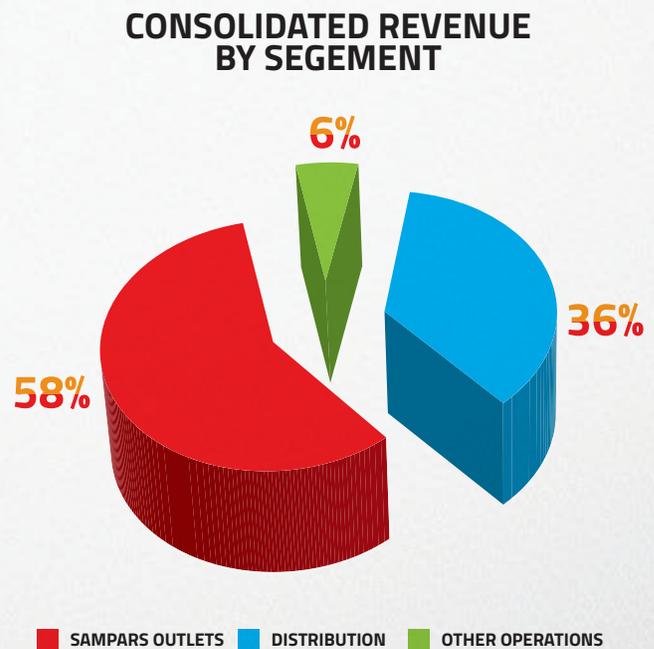

The overall growth in revenue was purposely tempered by a contraction in our distribution segment which yielded \$2.42 billion when compared to the \$2.89 billion in the financial year 2016. The mandate from the Board of Directors of the Company was to ensure that there remains top line growth while generating a specific hurdle return to the organization. In ensuring that this positive hurdle rate was achieved, management assessed the profitability of the portfolio and took action in the areas of purchasing, logistics, margin mining and finally product

rationalization to achieve the desired results.

The retail division accounted for the larger portion of the Company's total revenue in 2017, comprising of \$3,924.16 billion or 61.83%, an increase of \$635.38 million or 19% over the \$3,288.78 billion or 53.24% revenue reported in 2016. In 2017, revenue from our distribution segment contributed \$2,422.37 billion or 38.17% to the Company's total revenue relative to \$2,888.15 billion or 46.76% reported in 2016.

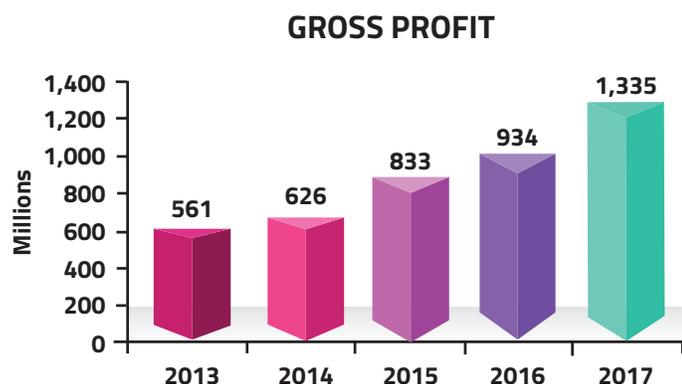

The Group posted consolidated revenues of \$6.72 billion, which includes the share of revenue from its joint venture operations in Select Grocers and its subsidiary Caribbean Flavours and Fragrances Limited.

GROSS PROFIT

The Company reported gross profit of \$1,183.63 billion compared to \$934.48 million for the comparable period in 2016. This represents a \$249.15 million or 26.66% year-over-year improvement and was directly influenced by a combination of factors:

- A reduction in the cost of sales margins to 81.35% when compared to the 84.87% reported in the comparative 2016 financial year.
- Improvement in margins in both the retail and distribution divisions of the Company.
- Cost of Sales closed the financial year at \$5.16 billion for the year ended December, 2017 versus \$5.24 billion reported in the similar financial year in 2016. An improvement of 1.52%.
- An improvement in gross profit by 23.27% - moving from an average of 15.13% in the financial year 2016 to an average of 18.65% in the financial year 2017.
- Group's gross profit of \$1.34 billion for the year, producing a margin of 19.87% while the cost of sales margin for the year closed at 80.13%.
- Continuous review and reduction in shelf space for underperforming products.
- Elimination of specific SKU's during periods of market instability and product excesses.

OTHER INCOME

Other income totaled \$38.56 million for the 2017 year end, compared to \$19.47 million earned in 2016. This represents a \$19.09 million or 98.05% growth over the previous period and was driven by:

- Revenues from the rental of warehouse spaces.

- Dividends received from Associated Company.
- The prudent management of available cash and interest rate spread.
- The positive cash flow impact from the continued culling of unprofitable SKU's within the distribution portfolio.
- Continued improvement in purchasing, logistics management and the sales process.
- Efficiency derived within the warehouse.

OPERATING EXPENSES

EXPENSES

Total operating expenses for the Company was \$1.05 billion for the year, a 42.70% increase over \$739.41 million reported in 2016's. The activities as described namely, acquisition of additional shares in Caribbean Flavours and Fragrances in February 2017; liquidation of higher costing US Dollar debt; legal cost associated with the acquisition of the assets of Caribbean Home Entertainment Systems and Chris Ryon Limited; the increased rental, utilities, maintenance and staff costs; and the full effects of other costs in 2017, were some of the major reasons for the increase in year-over-year operating expenses.

For this reporting period, administrative expenses totaled \$923.90 million which represented a 65% increase over the \$561.46 million booked in 2016. The major influencer of this cost was staff and other staff related costs. Staff and its related cost grew by 23.81% from \$273.09 million to close the period at \$349.92 million. Salaries and wages accounted for \$301.28 million, up from \$247.60 million recorded in 2016, reflecting an increase of 21.68%. Contributing factors for the increase were the realignment of the business to make it more service oriented especially within the retail space, the opening of new stores, the addition of new delivery routes and the new juice depots.

The rental of facilities grew because of general increases in rental and property maintenance rates, as well as the addition of Sampars Cross Roads and Select Grocers to the portfolio. Even though some of these locations were opened for business during the calendar year, the payment of these obligations had to be done at the time that these lease arrangements were made. The rental expense represents approximately 13.4% of the total operating expenses and these costs accumulated to

\$123.95 million or a year-over-year growth of \$63.35 million or 104.52%.

The impact of these new facilities and additional costs negatively impacted the administrative expense margin, resulting in a year-over-year deterioration from the average of 9.09% reported in 2016 to the 14.56% in 2017. This deterioration was expected and is in direct alignment with the Company's growth that is reflected in revenue and gross profit. Notwithstanding this expectation, various cost savings initiatives have been initiated and implemented which are geared at reducing some of these identified costs within the group and thereby establishing specific levels of expenses for various expense lines.

Selling and distribution costs for the Company decline year-over-year by 26.26% to close at \$131.23 million, as compared to \$177.95 million reported in 2016. The decline in selling and distribution costs was driven primarily by the deliberate contraction of business within the distribution division, thereby reducing the need for excessive trucking and related expenses such as delivery costs. The trucking and delivery costs for the period was \$69.12 million, representing a \$23.59 million or 25.45% reduction over the \$92.70 million reported in 2016.

Advertising, marketing, and promotion for the year reflected an 11% decrease, while commission expenses and bad debts written off both reflected declines year-over-year by 56% and 8% respectively. Various initiatives were implemented during the year, such as improvement in the credit management process, review of commission structure making it more performance driven and more direct marketing and trade discounts. These strategies positively impacted the outcome of the reported selling and distribution costs. Both selling and distribution expense margins remain relatively low for the Company and Group. For the financial year ending December 2017, selling and distribution expense margins were 2.07% and 2.02% for both Company and the Group respectively.

Total consolidated expenses for the Group closed the year at \$1.14 billion as administrative costs amounted to \$1.01 billion. Selling and distribution costs for the year amounted to \$135.67 million.

FINANCE COST

During the financial year, the financing of the growth strategy and the refinancing of its US Dollar loans were done through new Jamaican Dollar loans. The early liquidations, as well as the cost associated with these new loans for the eleven (11) months of the year, had a longer and greater effect on the finance cost of the Company in 2017.

Finance cost for the financial year closed at \$169.10 million, a 23.77% increase over the \$138.62 million reported in 2016. The Group's consolidated finance cost stood at \$169.90 million as the subsidiary and the joint venture is free of debt. Though there were increases in both bank charges and line of credit charges during the year, the cost associated with long-term financing remains constant.

PROFIT FOR THE YEAR

The net profit reported from operations was \$204.32 million for the year ended December 31, 2017 - a year-over-year increase of 76% from the \$116.11 million generated in 2016. The Group consolidated net profit was \$281.80 million for the year ended December 31, 2017. Based on these results, the net profit margin for the Company has improved over the last three years from 1.4% at the end of the financial year ending 2015 to 3.22% at the end of this financial year. This improvement in the net profit and margin was derived by the careful implementation of strategies within the retail and distribution arms of the business and the resolve to increase the net margins through the expansion of the network touch points as well as efficient implementation of strategic initiatives on a quarterly basis. For the year ending December, 2017, the Group's net profit margin was 4.19% for the period.

FINANCIAL POSITION

As at December 31, 2017, the Group's financial position continued to record growth and displayed favorable trends. Total assets grew to \$2.676 billion, an increase of \$412.03 million or 18.19% when compared to the \$2.264 billion recorded in the similar period ending December,

2016. Non-current asset increased by \$457.54 million or 119% year-over-year, due primarily to an increase in Plant, Property & Equipment and Investment in Associate. Both Plant, Property & Equipment and Investment in Associate increased 11% and 125% respectively. The Group's assets were \$2.89 billion which incorporates Derrimon Trading's interest in Caribbean Flavours and Fragrances Limited.

Current assets for the Company was at \$1.83 billion, which was influenced by a deliberate strategy of a contraction of the Company at the end of the period on the distribution side. This resulted in the overall reduction in current assets with a 22% decline year-over-year.

Current liabilities remained relatively flat year-over-year to close at \$1.08 billion. Both short-term loan and bank

overdraft fell by 87% and 68% respectively. However, current portion of long-term loans increased by 730% to \$256.53 million in 2017 with the imminent maturity of the \$250 million preference shares in March 2018. Non-current liabilities grew by 21% year-over-year, driven by an increase in borrowings by \$131.15 million to \$746.74 million when compared to the \$615.59 million recorded in 2016. The Group reported a current and non-current liabilities of \$1.10 billion and \$754.32 million respectively but remained current as payments were made as scheduled.

The financial and operations report of the Company indicates the growth potential that exists for all areas of the business and the direct focus on a continued and sustained management of cash-flow and finance costs.

CORPORATE SOCIAL RESPONSIBILITY

We believe that a business should not only exist to achieve financial goals, but also contribute to its immediate community and ultimately the wider society. We are committed to living our good neighbour philosophy of bringing people together, inspiring change and encouraging individuals to become their own best selves.

Our ongoing corporate responsibility includes several key commitments within the communities in which we serve. We believe that to truly make an impact and see a transformation in the lives of those we touch, the initiatives must have longevity and demonstrate an ongoing commitment. Some of our activities include:

COMMUNITY DEVELOPMENT & TRANSFORMATION

- As a part of the Self Reliance Youth Development Organization, the Company hosts a monthly group discussion with the parents of the students to explore and find solutions for common parental issues. Parents also use this time to get updates on the progress of their children's academics.
- Working with local church ministries such as the Majesty Gardens Transformation Ministry.

EDUCATION

- Providing financial assistance for primary, secondary and tertiary level students in the surrounding community.
- Annual Back-to-School Treat for the children in the surrounding communities.
- The Self Reliance Youth Development Organization supports students with tuition and fee assistance. Additionally, Sampars opens its gates to the students on Saturdays to host extra classes. The annual barbecue fundraiser put on by the parents in association with Sampars, to raise funds to offset additional school expenses also utilizes the Sampars grounds as the venue

OTHER ACTIVITIES

- Providing care baskets for the elderly and shut-ins in nearby communities
- Donating products to Churches, Schools, and Non-Profit Organizations
- Participate in charitable corporate fundraising walk/run events

**DERRIMON REMAINS COMMITTED TO THESE PROGRAMMES
AND BEING AN ACTIVE CORPORATE CITIZEN IS SOMETHING
DEEPLY ENTRENCHED IN OUR VALUES.**

To the Members of
Derrimon Trading Company Limited

Report on the Audit of the Financial Statements

Our Opinion

In our opinion, the consolidated financial statements and stand-alone financial statements give a true and fair view of the consolidated financial position of Derrimon Trading Company Limited (the Company) and its subsidiary (together the 'Group') as at 31 December 2017 and the stand-alone financial performance and its consolidated and stand-alone cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) and the requirements of the Jamaican Companies Act (the Act).

What we have audited

Derrimon Trading Company Limited's consolidated and stand-alone financial statements comprise:

- The Group and stand-alone statements of comprehensive income for the year ended 31 December 2017.
- The Group and stand-alone statement of financial position as at 31 December 2017.
- The Group and stand-alone statements of changes in stockholders' equity for the year ended 31 December 2017.
- The Group and stand-alone statements of cash flows for the year ended 31 December 2017.
- The notes in the financial statements include a summary of significant accounting policies.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under these standards are further described in the *Auditor's Responsibilities for the audit of the consolidated and stand-alone financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company within the meaning of the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Our Audit Approach

Audit scope

We designed our audit by determining materiality and assessing the risks of material misstatements in the consolidated financial statements. In particular, we considered where management made subjective judgments, for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including, among other matters for consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements. Key audit matters are selected from the matters communicated with the Audit Committee members (those charged with Governance) but are not intended to represent all matters that were discussed with them. These matters are addressed in the context of our audit of the financial statements as a whole, and forming our opinion thereon, and we do not provide a separate opinion on these matters.

- **Borrowings**

See notes 3 (v), 24 and 26 to the financial statements for management's disclosures of related accounting policies, judgments and estimates.

Based on the Strategic decision by the Group to generate growth by utilizing debt as at 31 December 2017, long and short-term borrowings inclusive of preference shares and overdraft facilities represented \$1.04 Billion or 58 % of the total assets of the Group. The Group is highly leveraged.

We reviewed the loan agreements and repayment schedules and noted that all the loans were being serviced on a timely basis as per the contractual agreements, principally by predetermined monthly deductions from the Company's bank accounts. We confirmed the balances, reviewed the maturity schedule for repayment, tested the interest calculations and determined that the total borrowings represented obligations by the Company. We did not identify any negative correspondence from financial institutions that indicated that the Company was in breach of its stipulated covenants or loan repayment terms. We tested the effectiveness of controls over the timely repayment of loans and other credit facilities and noted that they are compliant with the various agreements.

We queried senior management regarding the growth and expansion strategy using debt as the principal means of growth and expansion. A downside to this strategy is the inherent liquidity risk that the cash generating units acquired, may not perform as expected resulting in the Company being unable to meet its obligations as they fall due.

Management is mindful of this inherent liquidity risk however, they are confident that their strategic growth and expansion plan will perform as anticipated based on historical performance and anticipated future positive trends due to the encouraging economic factors being experienced in the marketplace. Management is of the opinion that effective safeguards are in place as they have implemented the necessary policies and procedures including scenario analysis, alternative payment strategies in the event of cash flow challenges and direct monitoring of the individual borrowings.

Independent Auditor's Report

To the Members of
Derrimon Trading Company Limited

Page 3

Key Audit Matters (continued)

- **Borrowings (continued)**

See notes 3 (v), 24 and 26 to the financial statements for management's disclosures of related accounting policies, judgments and estimates (continued).

We evaluated the performance of the borrowing portfolio subsequent to the end of the reporting period to determine whether there was a need for any adjustment or whether there were any default or breach of any terms of financial covenants during the subsequent period that would permit any lender to demand accelerated repayment. There were no adverse findings. We also reviewed legal and bank confirmations and correspondences and we did not identify any negative matters or need for adjustment at the time of approval and signing of the audit report by the Board of Directors.

- **Goodwill**

See notes 3 (q) and 16 to the financial statements for management's disclosures of related accounting policies, judgments and estimates

Under IFRS, the Group is required to annually test the amount of goodwill and other intangibles. This annual impairment test was significant to our audit because the assessment process is complex and highly judgmental and is based on assumptions that are affected by expected future market or economic conditions existing in Jamaica. As a result, our audit procedures included, among others, evaluating the assumptions used by the Group, in particular, those relating to the forecasted revenue growth and profit margins for the supermarket outlets. The Group's disclosures regarding goodwill are included in note 3 (q), which specifically explains that small changes in key assumptions used could give rise to an impairment of the goodwill balance in the future. The individual cash generating units that were acquired, inclusive of a payment for goodwill continues to operate satisfactorily and as a consequence management do not consider it necessary to make any impairment provision.

- **Joint Operation**

See notes 3 (c), (d) and 9 to the financial statements for management's disclosures of related accounting policies, judgments and estimates.

As described in Note 9, the Company acquired 60% of Select Grocers and started operations in March 2017. Management determined that it was a joint operation and therefore the Company accounted for 60% of the assets, liabilities, revenue and expenses. Management considered this method to be appropriate based on the circumstances.

We evaluated, by reference to IFRS 10 and IFRS 11, whether joint control existed and the type of joint arrangement and based on how Select Grocers was being operated it was not considered unreasonable to account for Select Grocers in this manner.

Other Information

Management is responsible for the other information. The other information comprises the Annual Report inclusive of the Directors', Chairman of the Board and the Chief Executive Officer Reports but does not include the consolidated financial statements and our Auditor's Report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover Other Information and we do not express any form of assurance thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information referred to above when it becomes available and, in doing so, we will consider whether the other information is materially consistent with the consolidated financial statements or whether knowledge obtained by us from the audit, or otherwise, appear to indicate any material misstatements.

When we read the Annual Report, if we conclude that there are any material misstatements therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and those charged with Governance for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view in accordance with IFRS and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters relative to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatements, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISA) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report

To the Members of
Derrimon Trading Company Limited

Page 5

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves a fair presentation.
- Obtain sufficient appropriate audit evidence regarding the consolidated financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are not responsible for the direction, supervision and performance of the Group. We remain solely responsible for our audit opinion.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

We communicate with the Board of Directors of the Group regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosures about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Jamaican Companies Act, we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

In our opinion, proper accounting records have been kept, so far as appears from our examination of those records, and the accompanying consolidated financial statements are in agreement therewith and give the information required by the Jamaican Companies Act, in the manner so required.

The engagement partner on the audit resulting in this independent auditor's report is Wilfred McKenley.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

1. IDENTIFICATION AND PRINCIPAL ACTIVITIES

Derrimon Trading Company Limited ("the Company") together with its subsidiary is referred to as the Group. The Company is a private company limited by shares incorporated and domiciled in Jamaica. Effective 17 December 2013, the Company's shares were listed on the Junior Market of the Jamaican Stock Exchange (JSE). The registered office of the Group is located at 233 and 235 Marcus Garvey Drive, Kingston 11.

The principal activity of the Company is the wholesale and bulk distribution of household and food items inclusive of meat products and the retailing of those and other food items and meat products through the operation of a chain of outlets and supermarkets.

2. BASIS OF PREPARATION

Statement of compliance

The financial statements have been prepared in accordance with the provision of the Jamaican Companies Act (the 'Act') and with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board (IASB) using the accounting policies described herein.

These consolidated financial statements were authorized for issuance by the Company's Board of Directors on 28 February 2018.

Going concern

The preparation of the financial statements in accordance with IFRS assumes that the Group will continue in operational existence for the foreseeable future. This means, in part, that the statements of profit or loss and comprehensive income and financial position assume no intention or necessity to liquidate or curtail the scale of operations. This is referred to as the going concern principle.

Management principally uses borrowings as a means of growth and expansion. This strategy has an inherent liquidity risk that the cash generating units acquired using debt may not perform as expected and result in cash flow challenges. Management is mindful of this inherent liquidity risk. They are confident that their strategic growth and expansion strategy and plan will perform as anticipated and along with management's access to further credit facilities, they do not anticipate any going concern challenges within the foreseeable future.

Management has prepared the financial statements of the Group as a going concern. The Group and Company are expected to continue in operation for the foreseeable future. Management has neither the intention nor have they considered the need to liquidate or significantly curtail the scale of its operation.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

2. BASIS OF PREPARATION (CONTINUED)

Basis of presentation

The financial statements have been prepared on the historical cost basis, except for the following items, which are measured at fair value:

- Financial instruments at fair value through profit or loss;
- Available-for-sale financial assets;
- Revaluation of certain property, plant and equipment; and
- Initial recognition of assets acquired, and liabilities assumed in subsidiaries and joint arrangement

Revenues and expenses

Revenues and expenses are recorded on the accrual basis, whereby transactions and events are recognized in the period in which the transactions and events occur, regardless of whether there has been a receipt or payment of cash or its equivalent

Functional and presentation currency

The Group's functional and presentational currency is the Jamaican dollar (JAD\$).

Key sources of estimation and critical judgments

The preparation of the financial statements in accordance with IFRS requires Management to make judgments and estimates that may affect:

- The application of accounting policies;
- The reported amounts of assets and liabilities;
- Disclosures of contingent assets and liabilities; and
- The reported amounts of revenue and expenses during the reporting periods.

Actual results may differ from estimates made in these consolidated and stand alone financial statements. The use of estimates is an essential part of the preparation of financial statements and does not undermine their reliability.

Judgments are made in the selection and assessment of the Group accounting policies. Estimates are used mainly in determining the measurement of recognized transactions and balances. Estimates are based on historical experience and other factors, including expectations of future events, believed to be reasonable under the circumstances. Judgments and estimates are interrelated. Management's judgments and estimates are continually re-evaluated to ensure they remain appropriate. Revision to accounting estimates is recognized in the period in which the estimates are revised and in the future periods affected.

The following are the accounting policies that are subject to judgments and estimates that management believes could have the most significant impact on the amounts recognized in the financial statements.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

2. BASIS OF PREPARATION (CONTINUED)

Key sources of estimation and critical judgments (Continued)

Operating segments information

Judgment – Management uses judgment in determining the similarity of the economic characteristic of the segments for aggregation.

Impairment of assets

Judgment – Management uses judgment in determining the grouping of assets to identify the Cash-Generating Units ("CGUs") for the purposes of testing for impairment of property, plant and equipment ("PPE"), Intangibles and Goodwill. Management has determined that its three (3) strategic business units are its CGUs which comprise Distribution (Household products, detergents and bulk foods), Wholesale (Trading outlets and supermarkets) and Other Operations (Manufacturer of Flavours and Fragrances). In testing for impairment of PPE, these assets are allocated to the CGUs to which they relate.

Judgment has been used, at each reporting date, in determining whether there has been an indication of impairment which would require the completion of impairment testing.

Estimation – Management's estimates of a CGUs' recoverable based on value-in-use involves estimating future cash flows before taxes. Future cash flows are estimated based on a multi-year extrapolation of the last five years historical actual results and a terminal value by discounting the final year in perpetuity. The growth rate applied to the terminal value is based on the Bank of Jamaica's target inflation rate or Management's estimate of the growth rate specific to the individual item being tested. The future cash flow estimates are then discounted to their present value using the appropriate pre-tax discount rate which includes a risk premium specific to the business. The final determination of a CGUs' recoverable amount is based on fair value less cost to sell and its value-in-use.

Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in comprehensive income. This is reversed only if there has been a change in the estimates used to determine the recoverable amount and not to exceed the original carrying amount prior to its impairment. The reversal is also recognized in the statement of comprehensive income.

Income and other taxes

Judgment – Income and other taxes are subject to Government policies. In calculating current and recoverable income and other taxes, Management uses judgment when interpreting the tax rules and in determining the tax position. There are some transactions and events for which the ultimate tax determination is uncertain during the ordinary course of business.

Estimation – Income and other taxes are subject to Government policies and estimates are required in determining the provision. Management recognizes liabilities for possible tax issues based on estimates of whether additional taxes may be due.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

2. BASIS OF PREPARATION (CONTINUED)

Key sources of estimation and critical judgments (Continued)

Consolidation

Judgment – The Company uses judgment in determining the entities that it controls and accordingly consolidates. An entity is controlled when the Company has power over the entity, exposure or rights to variable returns from its involvement with the entity and the ability to use its power over the entity to affect the number of returns it receives from the entity. If facts and circumstances indicate that there are changes to one or more of the control elements, the Company reassesses whether it still has control.

Joint arrangement

Judgment – Management applies judgment in determining the type of joint arrangement in which it is involved. The classification of the joint arrangement as a joint operation or a joint venture depends upon the rights and obligations of the parties to the arrangement, its structure and legal form, the terms agreed by the parties in the contractual arrangement, and when relevant, other facts and circumstances.

Investment property

Judgment – Management applies judgment in determining whether a property qualifies as an investment property. Criteria are developed so as to allow Management to exercise that judgment consistently.

Related parties and related party transactions

Judgment – Management uses judgment in determining the level of details to be disclosed. Consideration is given to the closeness of the related party relationship and other factors relevant in establishing the level of significance of the transaction(s).

Depreciable assets

Estimates of the useful life and the residual value of property, plant and equipment are required in order to apply an adequate rate of transferring the economic benefits embodied in these assets in the relevant periods. The Group applies a variety of methods in an effort to arrive at these estimates from which actual results may vary. Actual variations in estimated useful lives and residual values are reflected in profit or loss through impairment or adjusted depreciation provisions.

Inventories

Estimation – Inventories are carried at the lower of cost and net realized value. Cost being measured on the average cost basis. The estimation of net realized value is based on the most reliable evidence available, at the time the estimates are made, of the amount the inventories are expected to realize. Additionally, estimation is required for inventory provision due to shrinkage, slow-moving and obsolescence.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

2. BASIS OF PREPARATION (CONTINUED)

Key sources of estimation and critical judgments (Continued)

Receivables

Estimation – Management's estimate of allowance on accounts receivable is based on analysis of the Aged Receivables and historical experience with delinquency and default. Default rates and the allowance amount are regularly reviewed against the actual outcomes to ensure that they remain appropriate.

Allowance for losses

Judgments: In determining amounts recorded for allowance for losses in the financial statements, management makes judgments regarding indicators of impairment, that is, whether there are indicators that suggest there may be a measurable decrease in the estimated future cash flows from accounts receivable and other financial assets from conditions such as repayment default and adverse economic conditions. Management also makes estimates of the likely estimated future cash flows from impaired assets, including the net realizable value of underlying collateral, as well as the timing of such cash flows. The adequacy of the allowance depends on the accuracy of these judgments and estimates.

Contingencies

In determining the existence of a contingent liability, management assesses the existence of:

- A possible obligation that arises from a past event and which existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or;
- A present obligation that arises from a past event but is not recognized because it is not possible that an outflow of economic benefit is required to settle or the amount of the obligation cannot be measured reliably. In estimating possible outflow of economic benefits in relation to a contingent liability, management, sometimes in consultation with experts such as legal counsel may or may not make provision in the financial statements based on judgments regarding possible outcomes according to specific but uncertain circumstances. Contingent liabilities are disclosed in the financial statements unless immaterial or the possibility of an outflow of economic benefits is remote.

Others

Estimation – Other estimates include measuring payables and accruals and in measuring fair values of financial instruments.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

2. BASIS OF PREPARATION (CONTINUED)

Standards, amendments and interpretations issued and adopted which are relevant to the Group's operations

Disclosure initiative (IAS 1)

In December 2014, the International Accounting Standard Board ("IASB") issued Disclosure Initiative amendments to IAS 1 as part of the IASB's Disclosure Initiative. These amendments encourage entities to apply professional judgment regarding disclosure and presentation in their financial statements. These amendments were effective for annual periods beginning on or after January 1, 2016, and were applied prospectively. The implementation of these amendments did not have any significant effects on these consolidated financial statements.

Disclosure initiative (IAS 7)

In January 2016, the IASB issued Disclosure Initiative amendments to IAS 7 – Statement of Cash Flows also as part of the IASB's Disclosure Initiative. These amendments required entities to provide additional disclosures that will enable financial statement users to evaluate changes in liabilities arising from financing activities, including changes from cash flows and non-cash changes.

These amendments are effective for annual periods beginning on or after 1 January 2017.

Income taxes (IAS 12)

In January 2016, the IASB amended IAS 12 – *Income taxes* by issuing Recognition of deferred tax assets for unrealized losses. The amendments clarify the accounting for deferred tax where the asset is measured at fair value and that fair value is below the asset's tax base. The amendments also address the accounting for deferred tax assets for unrealized losses on debt instruments measured at fair value.

These amendments are effective for annual periods beginning on or after 1 January 2017.

Disclosure of interests in other entities (IFRS 12)

In December 2016, the IASB amended IFRS 12 – Disclosure of interest in other entities. The objective of these amendments is to require an entity to disclose information that enables users of the financial statements to evaluate the nature of and risk associated with its interest in other entities; and the effects of those interests on its financial position, financial performance and cash flows.

These amendments are effective for annual periods beginning on or after 1 January 2017.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

2. BASIS OF PREPARATION (CONTINUED)

Standards, amendments and interpretations issued but not yet adopted which are relevant to the Group's operations

The following new standards, amendments and interpretations have been issued and may impact the financial statements but are not effective for the fiscal year ended 31 December 2017 and, accordingly, have not been applied in preparing these Group financial statements.

Investment property (IAS 40)

In January 2016, the IASB issued amendments to IAS 40 – Investment property. These amendments clarified that to transfer to, or from investment property, there must be a change in use. There must be an assessment and supportable evidence for the change.

These amendments are effective for annual periods beginning on or after 1 January 2018.

Financial instruments (IFRS 9)

In July 2014, the IASB issued the final version of IFRS 9 – Financial Instruments, which bring together the classification and measurement, impairment and hedge-accounting phases of the IASB's project to replace IAS 39 – Financial Instrument: Recognition and Measurement. IFRS 9 principal focus includes revised guidance on the classification and measurement of financial assets and liabilities, including a new expected credit loss model for calculating impairment of financial assets; and new disclosure requirements about expected credit loss and credit risk. For Hedge accounting – The new general hedge accounting model more closely aligns hedge accounting with risk management activities undertaken by entities when hedging their financial and non-financial risk exposures.

IFRS 9 will be applied retrospectively for annual periods beginning on or after 1 January 2018.

Revenue from contracts with customers (IFRS 15)

In May 2014, the IASB issued IFRS 15 – Revenue from contracts with customers, which replace IAS 11 – Construction contracts, IAS 18 – Revenue and International Financial Reporting Interpretation Committee ("IFRIC") 13 – Customer loyalty program (IFRIC 13), as well as various other interpretations regarding revenue. IFRS 15 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers, except for contracts that are within the scope of the standards on leases, insurance contracts and financial instruments. It also contains enhanced disclosure requirements.

In April 2016, the IASB published clarifications to IFRS 15 which address three topics (identifying performance obligations, principal versus agent considerations and licensing) and provided some transition relief for modified contracts and completed contracts.

IFRS 15 and the amendments will be applied retrospectively for annual periods beginning on or after 1 January 2018. Early adoption is permitted.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

2. BASIS OF PREPARATION (CONTINUED)

Standards, amendments and interpretations issued but not yet adopted which are relevant to the Group's operations (continued)

Leases (IFRS 16)

In January 2016, the IASB issued IFRS 16 – *Leases*, which replace IAS 17– *Leases* and related interpretations. IFRS 16 provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases unless the lease term is 12-months or less or the underlying assets have a low value. IFRS 16 substantially carries forward the lessor accounting in IAS 17 with the distinction between operating and finance leases being retained.

IFRS 16 will be applied retrospectively for annual periods beginning on or after 1 January 2019. Early adoption is permitted if IFRS 15 has also been applied.

Foreign currency transactions and advance consideration (IFRIC 22)

In January 2016, the IASB amended IAS 21 – *The effects of changes in foreign exchange rates* by issuing IFRIC 22 – *Foreign currency transactions and advance consideration*. These amendments clarified how to determine the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part thereof) on the de-recognition of a non-monetary asset or non-monetary liability arising from payment or receipt of advance consideration in a foreign currency.

IFRIC 22 is effective for annual periods beginning on or after 1 January 2018. Early application is permitted, and the Company is required to disclose that fact.

Uncertainty over income tax treatments (IFRIC 23)

This interpretation clarifies how to apply the recognition and measurement requirements in IAS 12 when there is uncertainty over income tax treatment.

IFRIC 23 is effective for annual periods beginning on or after 1 January 2018. Early application is permitted, and the Company is required to disclose that fact.

Investments in associates and joint ventures (IAS 28)

In December 2016, the IASB amended IAS 28 – *Investments in associates and joint ventures*. These amendments clarify the accounting policy choice available for *electing to* measure the investments at fair value through profit or loss in accordance with IFRS 9.

These amendments are effective for annual periods beginning on or after 1 January 2018.

Management is currently assessing the likely future impact of these standards and amendments on these consolidated financial statements.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied for all the years presented, unless otherwise stated, and have been applied consistently throughout the Group.

(a) Basis of consolidation

These consolidated financial statements include the accounts of Derrimon Trading Company Limited (DTCL) and entities it controls. An entity is controlled when the Company has the ability to direct the relevant activities of the entity, has exposure or rights to variable returns from its involvement with the entity, and is able to use its power over the entity to affect its returns from the entity. The results of the Group's subsidiary have been prepared to align with the Group's reporting date.

The results of Caribbean Flavours and Fragrances Limited (CFFL) which have a different year end, 30 June 2017, have been included in these consolidated financial statements for the twelve (12) months period ended 31 December 2017. The year-end of DTCL and Select Grocers Supermarket is 31 December 2017.

Income or loss and each component of Other Comprehensive (OCI) are attributed to the shareholders of the Company and to the non-controlling interests. Total comprehensive income is attributed to the shareholders of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance on consolidation.

The consolidated financial statements include the financial statements of the Company and its holdings in Select Grocers and its subsidiary, CFFL as follows:

<u>Entity</u>	<u>Principal Activity</u>	<u>% Ownership by Company at 31 December 2017</u>	<u>% Ownership by Company at 31 December 2016</u>
CFFL	Manufacture of Flavours and Fragrances the Group at 31 December 2017	62.02	49.02
Select Grocers	Operation of Supermarket	60	0

During the year, on 10 February 2017, the Company acquired an additional 26% of CFF, moving its shareholding from 49.02% to 75.02% of CFFL. This gained control and this resulted in CFFL becoming a subsidiary at that date. On 16 June 2017, The Company subsequently sold 13% of its CFFL shareholdings, reducing its balance to 62.02% while maintaining control of CFFL.

The sale of the 13% shareholding represented a change in ownership interests without change of control. This transaction is accounted for as an equity transaction, that is, transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of the net assets of the subsidiary are recorded in equity. Gains or losses on disposals to non-controlling interests are recorded in profit or loss.

The Company's 60% holding in the joint arrangement with Select Grocers is being reported as a joint operation in accordance with IFRS 11. The Company accounts for this entity by incorporating 60% of its assets, liabilities, revenue and expenses into the financial statements of the Company.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Joint arrangement

A joint arrangement is an arrangement in which two or more parties have joint control.

Joint control is the contractually agreed sharing of control whereby decisions about relevant activities require the unanimous consent of the parties sharing control. A joint arrangement is classified as a joint operation when the parties those have joint control of the arrangement have rights to the assets and obligations for the liabilities related to the arrangement. The Company records its share of the joint operation's assets, liabilities, revenues and expenses.

(c) Business combination

The company applies the acquisition method in accounting for a business combination.

The consideration transferred by the company to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair value of the assets transferred, liabilities assumed, and the equity interests issued by the company.

The company recognizes identifiable assets acquired and liabilities assumed in a business combination regardless of whether they have been previously recognized in the company's financial statements prior to the acquisition. Assets acquired, and liabilities assumed are generally measured at their acquisition-date fair value.

Any Goodwill is stated after separate recognition of identifiable intangible assets. It is calculated as the excess of the sum of a) fair value of consideration transferred, b) the recognized amount of any non-controlling interest in the acquiree and c) acquisition-date fair value of any existing equity interest in the acquiree, over the acquisition-date fair values of the identifiable net assets. If the fair values of the identifiable net assets exceed the sum calculated above, the excess amount i.e., gain on a bargain purchase, is recognized in profit or loss immediately.

Transaction costs that the Company incurs in connection with a business combination are expensed immediately.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Associate

Associates are all entities over which the Company has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. The associate is initially recognized in the company's statement of financial position at cost. Subsequently, associates are accounted for using the equity method where the company's share of post-acquisition profits or losses is recognized in the statement of comprehensive income. Losses in excess of the Company's investment in the associate are not recognized unless there is an obligation to make good those losses. Profits or losses arising from transactions between the Company and its associate are recognized only to the extent of unrelated investors' interest in the associate. The investor's share of the associated profit and losses resulting from these transactions is adjusted against the carrying value of the associate.

Any premium paid for an associate above the fair value of the Company's share of the identifiable assets, liabilities and contingent liabilities acquired is capitalized and included in the carrying amount of the associate. Where there is objective evidence that the investment in an associate has been impaired, the carrying amount of the investment is tested for impairment in the same way as other non-financial assets.

Changes in ownership interests in subsidiary without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions, that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(e) Segment reporting

An operating segment is a component of the Company:

- a. That engages in business activities from which it may earn revenues and incur expenses (including intra-company revenues and expenses),
- b. Whose operating results are regularly reviewed by the Company's Board of Directors to make decisions about resources to be allocated to the segment and assess its performance, and
- c. For which discrete financial information is available.

An operating segment may engage in business activities for which it has yet to earn revenues.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Segment reporting (continued)

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment capital expenditure is the total cost incurred during the year to acquire segment assets that are expected to be used for more than one year. Management considers the Company to have three (3) (2016- two (2)) strategic business units which offer differentiated volume and price to its customers.

The primary operating segments (reportable business units) are:

Distribution (Household products, detergents and bulk foods);

Wholesale (Trading outlets and supermarkets); and

Other Operations (Manufacturer of Flavours and Fragrances)

Financial and other transactions between business units have been eliminated where necessary in preparing these consolidated financial statements.

(f) Property, plant and equipment

Property, plant and equipment are stated at historical cost, less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of items. Land is carried at cost and is not depreciated.

Depreciation is calculated on a straight-line basis at such rates as will write off the carrying value of the assets over the period of their expected useful lives. Current annual rates of depreciation are:

Buildings	2.5%
Leasehold improvements	2.5%
Machinery and equipment	10.0%
Furniture, fittings and fixtures	20.0%
Motor vehicles	20.0%
Computer	33.33%

The assets' residual values and useful lives are reviewed periodically for impairment. Where the assets' carrying amount is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Gains and losses on disposal of property, plant and equipment are determined by comparing the proceeds with the carrying amount and are recognized in other income in the statement of comprehensive income.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Property, plant and equipment (Continued)

Repairs and maintenance expenditure are included in the statement of comprehensive income during the financial period in which they are incurred. The cost of major renovations is included in the carrying amount of the asset when it is probable that the future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Company.

The cost of self-constructed assets includes the cost of materials, direct labour and related cost to put the asset into service. Borrowing costs, including but not limited to, interest on borrowings and exchange differences arising on such borrowings, that are directly attributable to the acquisition and/or construction of a qualifying asset are capitalized as part of the cost of that asset. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying asset for its use are complete. Thereafter, borrowing costs are recognized in profit or loss when they are incurred.

(g) Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods in the ordinary course of the Group's activities. Revenue is shown net of General Consumption Tax, returns and discounts and after eliminating sales within the Group.

The Group recognizes revenue in the income statement when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Group, where the significant risks and rewards of ownership have been transferred to the buyer and specific criteria have been met in relation to the Group's activities as described below:

Sale of goods

Sales are recognized upon delivery of products and customer acceptance of the products and collectability of the related receivables is reasonably assured. No revenue is recognized if there are significant uncertainties regarding recovery of the consideration that is due for the delivery and supply of goods.

Services rendered

Revenue from the provision of services is recognized when the service has been provided to customers.

Interest income

Interest income is recognized in profit or loss for all interest-bearing instruments on an accrual basis unless collectability is doubtful.

Dividend income

Dividend income is recognized when the right to receive payment is established.

Other operating income

Other operating income includes gains on disposal of assets recognized when received, rental of investment property recognized when earned, and miscellaneous inflows recognized when received.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Foreign currency translation

Transactions in foreign currencies are translated into Jamaican dollars at rates in effect at the date of the transaction.

Monetary assets and liabilities in foreign currencies are translated into Jamaican dollars at the closing exchange rate at the statement of financial position date. Non-monetary assets and liabilities in foreign currencies that are measured in terms of historical cost are translated into Jamaican dollars at the exchange rate in effect at the date of the transaction or initial recognition. Non-monetary items in foreign currencies that are measured at fair value are translated using the exchange rates at the date when the fair value was determined. Exchange gains and losses arising from translation are generally included in profit or loss.

Exchange rates are determined by the published weighted average rate at which commercial banks trade in foreign exchanges.

(i) Financial instruments – recognition and measurement

A financial instrument is any contract that gives rise to a financial asset in one entity and a financial liability or equity instrument in another entity.

Financial assets and liabilities:

Financial assets and financial liabilities are recognized in the statement of financial position when the Company becomes a party to the contractual provisions of a financial instrument. All financial instruments are required to be measured at fair value on initial recognition. Subsequent measurement of these assets and liabilities is based on fair value or amortized cost using the effective interest method.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, except those classified as *fair value through profit or loss* ("FVTPL"), are added to or deducted from the fair value of the financial assets and financial liabilities, as appropriate, on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities classified as *fair value through profit or loss* are recognized immediately in net income.

The Company classifies financial instruments, at the time of initial recognition, according to their characteristic and Management's choice and intentions related thereto for the purposes of ongoing measurement. Classification choices for financial assets include:

- a. FVTPL
- b. Held-to-maturity investments
- c. Available-for-sale, and
- d. Loans and receivables

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Financial instruments – recognition and measurement (continued)

Classification choices for financial liabilities include:

- a. FVTPL; and
- b. Other liabilities

The Company's financial assets and financial liabilities are generally classified and measured as follows:

Asset/Liability	Classification	Measurement
Receivables	Loans and receivables	Amortized cost
Investments	Available-for-sale	Fair value
Cash and cash equivalents	Loans and receivables	Amortized cost
Related party receivable	Loans and receivables	Amortized cost
Bank overdraft	Other liabilities	Amortized cost
Payables	Other liabilities	Amortized cost
Short term loans	Other liabilities	Amortized cost
Long-term borrowing	Other liabilities	Amortized cost

Available-for-sale

Financial assets classified as available-for-sale are measured at fair value with changes in fair value recognized in Other Comprehensive Income ("OCI") until realized through disposal or other than temporary impairment, at which point the change in fair value is recognized in net income. Dividend income from available-for-sale financial assets is recognized in net income when the Company's right to receive payments is established. Interest income on available-for-sale financial assets, calculated using the effective interest rate method, is recognized in net income.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest rate method, less any impairment, with gains and losses recognized in net income in the period that the asset is de-recognized or impaired.

Other liabilities

Subsequent to initial recognition, other financial liabilities are measured at amortized cost using the effective interest rate method, less any impairment, with gains and losses recognized in net income in the period that the liability is derecognized.

De-recognition of financial instruments

A financial asset is derecognized when the contractual rights to the cash flow from the assets expire or when the Company transfers the financial asset to another party without retaining control or substantially all the risks and rewards of ownership of the asset. Any interest in transferred financial assets created or retained by the Company is recognized as a separate asset or liability.

A financial liability is derecognized when the contractual obligations are discharged, cancelled or expire.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Inventories

Inventories are carried at the lower of cost and net realizable value.

The cost of inventories is determined based on weighted average cost and includes costs incurred in bringing the inventories to their present location and condition. Inventories comprised finished goods, work-in-progress, and raw and packaging materials.

Net realizable value is the estimated selling price of inventory during the normal course of business less estimated selling expenses.

(k) Related parties' disclosure

Related parties are identified and disclosed to allow users of the financial statements to be aware of the possibilities that the financial position and profit or loss may have been affected by the existence of related parties and by transactions and outstanding balances, including commitments, with such parties.

A related party is a person or entity that is related to the Company:

- (a) **A person or close member of that person's family is related to the Company if that person:**
- Has control or joint control over the Company;
 - Has significant influence over the Company; or
 - Is a member of the key management personnel of the Company or of a parent of the Company.
- (b) **An entity is related to the Company if any of the following conditions applies:**
- The Company, its subsidiary and joint operation are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - One company is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - Both companies are joint ventures of the same third party.
 - One company is a joint venture of a third entity and the other entity is an associate of the third entity
 - The company is a post-employment benefit plan for the benefit of the employees of either the reporting entity or an entity related to the reporting entity.
 - The company is controlled, or jointly controlled by a person identified in (a) above.
 - A person identified related to the Group has significant influence over the company or is a member of the key management personnel of the company (or of a parent of the company).
 - The company, or any member of a group of which it is a part, provides key management personnel services to the company or to the parent of the company.

A related party transaction involves transfer of resources, services or obligations between the Company and a related party, regardless of whether a price is charged

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(l) Income taxes

Taxation expense in profit or loss comprises current and deferred tax charges

i. Current Taxation

Current tax charges are based on taxable profit for the year, which differs from the reported profit before tax because it excludes items that are taxable or deductible in other years, and items that are never taxable or deductible. The Group's liability for current tax is calculated at tax rates that have been enacted at the date of the statement of financial position.

ii. Deferred Taxation

Deferred tax is the tax expected to be paid or received on differences between the carrying amounts of assets and liabilities and the corresponding tax bases. Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Currently enacted tax rates are used in the determination of deferred income tax.

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. Deferred tax is charged or credited to profit or loss, except where it related to items charged or credited to other comprehensive income or equity, in which cases, deferred tax is also dealt with in other comprehensive income or equity

At 31 December 2017, no deferred tax was accounted for because Derrimon, the parent company of the group, was listed on the Junior Market of the JSE, effective 17 December 2013 and is subject to five (5) years tax free status until 17 December 2018 and 50% tax free status until 17 December 2023.

The other subsidiary of the Group, CFFL, is also listed on the Junior Market of the JSE and during this period is not subject to income tax.

(m) Trade receivables

Trade and other receivables are carried at anticipated realizable value. An allowance for impairment of trade and other receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognized in *Bad Debt expense* in the statement of comprehensive income. When a trade receivable is deemed uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are recognized as recovery and credited in the statement of comprehensive income.

(n) Prepayments

Prepayments are partial or full settlements of debt or expenses before the contractually obligated due date, this includes advances and deposits.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) Investments

Investments are highly liquid instruments, primarily bonds and equities in both Jamaican and United States dollar denominations, with an original term to maturity of more than three months.

(p) Cash and cash equivalents

Cash and cash equivalents are defined as cash-in-hand and at-bank

Bank overdrafts are repayable on demand and form part of the Group's cash management activities and are included as a component of net cash resources for the purposes of the statement of cash flows.

(q) Intangible assets

Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Company's share of identifiable assets acquired and liabilities assumed in a business combination. Goodwill is measured at cost less accumulated impairment. Goodwill on acquisition of subsidiaries is included in intangible assets. Separately recognised goodwill is tested for impairment annually and carried at cost less accumulated impairment. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

For the purpose of impairment testing, goodwill acquired in a business combination is assigned to cash generating units that are expected to benefit from the synergies of the combination.

The Group and Company assess goodwill for impairment at least on an annual basis or when events or circumstance indicates that the carrying value may be impaired.

Research and development

Expenditures on research and development activities are expensed as incurred.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(r) Leased assets

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Lessor

When the Company is the lessor in an operating lease, rental income is recognized in net income on a straight-line basis over the term of the lease.

Lessee

When the Company is the lessee in an operating lease, rent payments are charged to profit or loss on a straight-line basis over the term of the lease. Lease incentives are amortized on a straight-line basis over the terms of the respective leases.

Assets under finance leases are recognized as assets of the Company at their fair value or, if lower, at the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability is included in the Consolidated Balance Sheets as a finance lease obligation. Lease payments are apportioned between finance costs and reduction of the lease obligations, so as to achieve a constant rate of interest on the remaining balance of the liability

(s) Impairment of assets

The carrying amounts of property, plant and equipment, investment property, and intangible assets with finite useful lives are reviewed at the end of each reporting period to determine whether there are any indicators of impairment. Indicators of impairment may include a significant decline in asset market value, material adverse changes in the external operating environment which affect the manner in which the asset is used or is expected to be used, obsolescence, or physical damage of the asset. If any such indicators exist, then the recoverable amount of the asset is estimated. Goodwill and intangible assets with indefinite useful lives and intangible assets not yet available for use are not amortized but are tested for impairment at least annually or whenever there is an indicator that the asset may be impaired.

Cash generating units

When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs. The CGUs correspond to the smallest identifiable group of assets whose continuing use generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. Goodwill acquired in a business combination is allocated to each of the CGUs (or groups of CGUs) expected to benefit from the synergies of the combination. Intangible assets with indefinite useful lives are allocated to the CGU to which they relate.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(s) Impairment of assets (Continued)

Determining the recoverable amount

An impairment loss is recognized when the carrying amount of an asset, or of the CGU to which it belongs, exceeds the recoverable amount. The recoverable amount of an asset or CGU is defined as the higher of its fair value less costs to sell ("FVLCS") and its Value-In-Use (VIU). In assessing VIU, the estimated future cash flows are discounted to their present value. Cash flows are discounted using a pre-tax discount rate that includes a risk premium specific to each line of business. The Company estimates future cash flows based on a multi-year extrapolation of the last five years historical actual results and a terminal value by discounting the final year in perpetuity. The growth rate applied to the terminal values is based on the Bank of Jamaica's target inflation rate or a growth rate specific to the individual item being tested based on Management's estimate.

Recording impairments and reversals of impairments

Impairments and reversals of impairments are recognized in other income in the Consolidated Statements of Income. Any impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the CGU and then to the other assets of the CGU. Impairments of goodwill cannot be reversed. Impairments of other assets recognized in prior periods are assessed at the end of each reporting period to determine if the indicators of impairment have reversed or no longer exist. An impairment loss is reversed if the estimated recoverable amount exceeds the carrying amount. The increased carrying amount of an asset attributable to a reversal of impairment may not exceed the carrying amount that would have been determined had no impairment been recognized in prior periods.

(t) Employee benefits

Employee benefits are all forms of consideration given by the Group in exchange for service rendered by employees. These include current or short-term benefits such as salaries, bonuses, NIS contributions, annual leave, and non-monetary benefits such as medical care and termination benefits.

Employee benefits that are earned as a result of past or current service are recognized in the following manner: short-term employee benefits are recognized as a liability, net of payments made, and charged as an expense. The expected cost of vacation leave that accumulates is recognized when the employee becomes entitled to the leave.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Pension and employee benefits

The Company does not have a Pension Plan; however, it has implemented an Individual Retirement Account (IRA) Scheme for some categories of staff operated by an Insurance Company. The Company contributes a fixed amount to this Scheme for each participating individual. The Company recognizes a liability and an expense for its contribution to the Scheme.

(v) Borrowings and borrowing costs

Short-term loans and Borrowings

Borrowings are classified as current when the Company expects to settle the liability in its normal operating cycle, it holds the liability primarily for the purpose of trading, the liability is due to be settled within 12 months after the date of the statement of financial position, or it does not have an unconditional right to defer settlement of the liability for at least 12 months after of the consolidated statement of financial position, otherwise, it is classified as long-term. Subsequent to initial recognition, Borrowings is measured at amortized cost using the effective interest rate method, less any impairment, with gains and losses recognized in net income in the period that the liability is derecognized.

Borrowing cost and interest

Borrowing costs and interests directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of these assets. Capitalization of such borrowing costs ceases when the assets are substantially ready for their intended use or sale.

All other borrowing costs and interests are recognized in profit or loss in the period in which they are incurred.

(w) Payables and accruals

Trade payables are obligations of the Group for goods or services acquired in the ordinary course of business from vendors and suppliers.

Payables for trade and other accounts payable at 31 December 2017, which are normally settled on 30 to 90 days terms, are recorded at original invoice amount or an amount representing the fair value of the consideration to be paid in the future for goods or services received by the Group.

Amounts accrued for certain expenses are based on estimates and are included in payables.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(x) Share capital, dividends and distributions

Shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are deducted, net of tax from proceeds.

Dividends

Dividends declared and payable to the Company's shareholders are recognized as a liability in the consolidated statement of financial position in the period in which the dividends are approved by the Company's Board of Directors.

Distributions

Distributions to non-controlling interest are recognized as a liability in the consolidated statement of financial position in the period in which the distributions are declared.

(y) Earnings per share

Basic earnings per share ("EPS") are calculated by dividing the net income attributable to the shareholders divided by the weighted average number of ordinary shares outstanding during the reporting period.

(z) Finance income and costs

Finance income comprises interest income on funds invested. Interest income is recognized as it accrues, using the effective interest method.

Finance costs comprise interest expense on borrowings and bank charges. Borrowing costs are recognized in profit or loss using the effective interest method.

(aa) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events if it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Group expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

The expense relating to any provision is charged to the statement of comprehensive income net of any reimbursement.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(bb) Non-controlling interests

Equity in the controlled entities not attributable, directly or indirectly, to the Company, is considered non-controlling interest. When the proportion of the equity held by non-controlling interest's changes, the Company adjusts the carrying amounts of the controlling and non-controlling interests to reflect the changes in their relative interest in the controlled entities. The Company recognizes directly in equity any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received, and attribute it to the shareholders of the Company.

(cc) Comparative information

Where necessary, comparative figures have been reclassified and or restated to conform to changes in the current year. There are no 2016 figures for the Group because the year ended 31 December 2017 was the first period that the Group acquired a subsidiary, necessitating consolidation.

4. SEGMENTAL FINANCIAL INFORMATION

Management has determined the operating segments based on the reports reviewed by the Chief Executive Officer that are used to make strategic decisions.

The Group operates three (3) segments. Two (2) segments are exposed to similar risks as they both sell household and grocery products and the third segment, which is new due to the consolidation of the subsidiary, manufactures flavor and fragrances. The principal divisions are:

- (i) Distribution- distribution of Nestle household products, Sun Power Detergents and bulk food products.
- (ii) Wholesale and retail - operation of seven (7) outlets, six trading under the name Sampars Cash and Carry and Sampars Outlets and the other under the name Select Grocers.

The distribution hub along with four (4) outlets is located in Kingston and Saint Andrew and the other three (3) locations are in rural Jamaica.

- (iii) Other operations – manufacturer of flavours and fragrances

	<u>377,431</u>	<u>349,918</u>	<u>273,092</u>

The average number of persons employed full-time by the Group during the year was 265 (2016 – 243) and part-time was 21 in (2016 - the Group came into existence in 2017).

8. ACQUISITION OF CARIBBEAN FLAVOURS AND FRAGRANCES LIMITED

On 12 February 2017, the Company acquired 75.02% of the voting shares of Caribbean Flavours and Fragrances Limited ("CFFL") by means of a staged acquisition with the ownership of an additional 26% of CFFL voting share for a purchase consideration of \$506,159,425. This included cash of \$105,206,436 and the fair value of 49.02% of CFFL voting shares (\$400,953) previously held as investment in associate by the Company. The fair value of the previously held shares were re-measured using the market price for CFFL shares of \$9.10 per share as quoted on the JSE on 12 February 2017.

CFFL, a public listed company on the JSE Junior Market, is domiciled in Jamaica with registered offices at 226 Spanish Town Road, Kingston 11, Jamaica W.I. Its activities are the manufacturing and distribution of flavours for the beverages, baking and confectionery industries; and fragrances for household and general cleaning and sanitation purposes

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

8. ACQUISITION OF CARIBBEAN FLAVOURS AND FRAGRANCES LIMITED (continued)

Intangible assets of \$270,789,869 were recognized on the acquisition, being the excess of the purchase consideration over the fair value of the net assets acquired as set out below. The net asset fair values, in line with accounting standards, were determined, on the cost approach basis reflecting the amount that would be required to replace the service capacity of the business. The net book values were deemed the replacement costs at the acquisition date. The fair value of the non-controlling interest was measured on the same basis.

On 16 June 2017, the Company sold 13% of its ownership interest in CFFL for cash consideration of \$114,648,068, reducing its holdings from 75.02% to 62.02%, without losing control of CFFL. As a result of this proportional change in equity held by the non-controlling interest, the Company adjusted the carrying amounts of the controlling and non-controlling interests to reflect the changes in their relative interest in CFFL. These adjustments were recognized directly in equity and the difference between the non-controlling interest and the consideration received were attributed to the shareholders of the Company.

DTCL: Summarized financial information

10. INVESTMENT IN ASSOCIATE AND SUBSIDIARY

	The Company	
	2017	2016
	\$	\$
	\$'000	\$'000
Associate acquired: August 2014		
Investment at the beginning of the year	194,604	160,825
Share of results of associate after tax	-	38,186
Less dividend received	-	(4,407)
Re-measurement gain on acquisition	206,350	-
Amount settled in cash	105,206	-
Cost of shares resold	(67,440)	-
Balance at the end of the year	438,720	194,604

In August 2014, the Company acquired 49.02% of CFFL, a company incorporated in Jamaica and listed on the Junior Market of the Jamaican Stock Exchange. The Company participated in the financial and operating policy decisions but did not control CFFL.

In February 2017, the Company acquired an additional 26% of the issued shares of CFFL, effectively gaining control. The Company subsequently sold 13% in June 2017, resulting in a holding of 62.02% of the issued shares as at 31 December 2017. Both entities were consolidated at the end of the reporting period.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

11. TAXATION

Income tax is based on profit for the year, taxable at 25%, adjusted for taxation purposes and comprises:

	The Group	The Company	
	2017 \$'000	2017 \$'000	2016 \$'000
Income tax charge @ 25% (2016 - 25%)	-	-	-

The income tax charge on the Group's profit differs from the theoretical amount that arose using the statutory tax rate as follows:

	The Group	The Company	
	2017 \$'000	2017 \$'000	2016 \$'000
Profit before taxation	281,796	204,315	116,106
Income tax calculation at 25%	70,449	51,078	29,026
Net effect of other charges for tax purposes	(50,374)	(51,078)	(8,546)
Remission of tax	(20,075)	-	(20,480)
	-	-	-

Derrimon was listed on the Junior Market of the Jamaican Stock Exchange on 17 December 2013 and under the Income Tax Act (Jamaica Stock Exchange Junior Market) (Remission). Notice 2010, 100% of income taxes will be remitted by the Minister of Finance during the first five (5) years of listing. During the second five (5) years, 50% of income taxes will be remitted by the Minister of Finance. To obtain the remission of income taxes, the following conditions should be adhered to over the period:

Derrimon remains listed for at least 15 years and is not suspended from the JSE for any breaches of the rules of the JSE

The Subscribed Participating Voting Share Capital of Derrimon does not exceed \$500 million

The Derrimon has at least 50 Participating Voting Shareholders.

The financial statements have been prepared on the basis that Derrimon will have the full benefit of the tax remissions. The period is as follows:

Years 1 to 5 (17 December 2013- 16 December 2018) – 100%

Years 6 to 10 (17 December 2018- 16 December 2023) - 50%

Derrimon's subsidiary, CFFL also benefits from tax remission as effective 2 October 2013, the Company's shares were listed on the Junior Market of the JSE and are is therefore not subject to income tax for the year ended 30 June 2017. The Company is entitled to a remission of income taxes for ten years in the following proportion:

Years 2014 – 2018 – 100% of standard rate

Years 2019 – 2023 – 50% of standard rate.

16. INTANGIBLE ASSETS

	The Group 2017		The Company Goodwill	
	Product Formulations and Customer relationships	Goodwill	2017	2016
	\$'000	\$'000	\$'000	\$'000
Cost-				
At 1 January 2017	-	15,220	15,220	15,220
Additions	-	18,000	18,000	-
Acquisition of business	256,523	33,220	33,220	
31 December 2017	256,523	33,220	33,220	15,220

During the year, the Group continued to use the name, *Sampars Cash and Carry* to brand six (6) of its retail outlets. The other supermarket, operated under the business name Select Grocers.

The Group determines whether goodwill is impaired on an annual basis or when events or changes in circumstances indicate the carrying value may be impaired. This requires an estimation of the recoverable amount of the cash-generating unit (CGU) to which the goodwill is allocated. The recoverable amount is determined by reference to the value in use which is based on the management's estimate of the expected future cash flows from the CGU using an agreed discount rate to calculate the present value of future cash flows.

After their computations and review, management is of the opinion, that there is no impairment in the total value of goodwill for each respective outlet (CGU) and therefore no write-down of the amount for goodwill is considered necessary at the reporting date.

17. INVENTORIES

	The Group	The Company	
	2017 \$'000	2017 \$'000	2016 \$'000

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

18. RECEIVABLES AND PREPAYMENTS (continued)

During the year, the Company wrote off \$12,256,143 (2016- \$13,252,868) to profit and loss after repeated attempts were made to collect long outstanding amounts. Management has deemed the current receivable balance to be collectible, as all doubtful amounts were written off during the year. All remaining doubtful balances over 90 days were reviewed and strategies and agreements implemented with debtors to help them liquidate their long outstanding balances with the Group.

19. RELATED PARTIES AND RELATED PARTIES TRANSACTIONS

Related party balances consist of the following:

(a) Due from related parties

	The Group	The Company	
	2017 \$'000	2017 \$'000	2016 \$'000
Convenience Store:			
Opening balance:	834	834	14,535
Purchases during the year	11,959	11,959	8,869
Amounts repaid based on invoices	(5,485)	(5,485)	(22,570)
Balance at the end of the year	7,308	7,308	834

The Convenience Store is an entity owned by the Managing Director.

(b) Key management personnel

During the year the Group paid salaries and repaid loans from key management personnel.

(c) Transactions with related parties

	The Group	The Company	
	2017 \$'000	2017 \$'000	2016 \$'000
Remuneration paid to management staff	39,674	28,424	34,664
Remuneration paid to directors	39,674	28,424	34,664
Directors' loan received by the Company	-	-	25,000

Depreciation	51,852		48,854	23,741
Staff costs (including management remuneration)	377,431		349,918	273,092

29. CAPITAL AND RISK MANAGEMENT

Capital Management:

The Group defines capital as equity and total borrowings. The Group manages its Capital, of \$1.9 Billion to support and be responsive to opportunities for its current growth strategy and expansion plans, and to maintain its normal operations and remain compliant with various covenants and restrictive rules and regulations of the industry and the financial environment in which it operates.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

29. CAPITAL AND RISK MANAGEMENT (Continued)

Capital Management Strategies

The Group's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for its shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital as well as meet externally imposed capital requirements. The Board of Directors monitors the return on capital, which the Group defines as net operating income divided by total shareholders' equity.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as total borrowings divided by capital as defined above. Total borrowing is calculated as current and non-current borrowings as shown in the consolidated statement of financial position. Capital is calculated as equity as shown in the statement of financial position plus total borrowings.

During 2017, the Group's strategy, which was in principle unchanged from 2016, was to maintain the gearing ratio below 100%. The gearing ratios at 31 December 2017 and 31 December 2016 were as follows:

	The Group		The Company	
	31 Dec 2017	31 Dec 2016	31 Dec 2017	31 Dec 2016
Total borrowings	1,013,083	703,234	1,003,271	703,234
Capital	1,906,578	1,267,702	1,847,604	1,267,702
Gearing ratio	53%	55%	54%	55%

There are certain imposed capital requirements by certain financial institutions which management regularly reviews to ensure compliance at all times. There have been no changes to the Group's overall approach to capital management during the year.

Risk Management:

The Group's activities expose it to a variety of financial risks: market risk (currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. This note presents information about the Group's exposure to each of the above risks as well as its objectives, policies and processes for measuring and managing risk.

The Directors have overall responsibility for the establishment and oversight of the Group's risk management framework. They are responsible for developing and monitoring the Group's risk management policies and through training to develop standards and procedures and a disciplined and constructive control environment in which all employees understand their roles and obligations.

Audit Committee

The Board of Directors has also established an Audit Committee to assist in managing the Group's risk profile. This Committee oversees how management monitors compliance with the Group's risk management policies and reviews the adequacy of the risk management framework. This committee is also assisted by Internal Audit that reports to the Audit Committee after it undertakes regular and ad hoc reviews of risk management controls and procedures, especially over inventories and receivables.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

29. CAPITAL AND RISK MANAGEMENT (Continued)

a) Market risk

The Group takes on exposure to market risks, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks principally arise from changes in foreign currency exchange rates, interest rates and commodity prices. The objective of market risk management is to manage and control market risk exposures within acceptable limits, while optimizing returns. This risk is principally monitored by the finance director along with guidelines from the board of directors.

There has been no change to the Group's exposure to market risk or the manner in which it manages and measures this risk.

i. Commodity Price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

The Company is exposed to price risk principally relating to importation of rice. The Company enters into commodity contracts in respect of the anticipated future usage requirements and the price on imported rice is tracked and purchased in advance, when necessary, if price on the international market is increasing. This strategy is used to mitigate this risk.

ii. Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group is exposed to foreign exchange risk, due to fluctuations in exchange rates on transactions and balances that are denominated in currencies other than the Jamaican dollar. The Group is exposed to foreign exchange risk, arising primarily with respect to the US dollar, from commercial transactions such as the importation and sale of bulk rice that represents a significant percentage of the Group's overall purchase figure. To manage currency risk on imported rice, the Group enters into short and medium-term arrangements with millers and producers at agreed terms primarily in producing countries.

Foreign currency bank accounts are maintained at levels which will meet foreign currency obligations and management also has access to purchase foreign currencies at market or close to market rates thereby reducing or mitigating the Group's exposure to sudden exchange rate fluctuations. The Group manages its foreign exchange risk by ensuring that the net exposure in foreign assets and liabilities is kept to an acceptable level by closely monitoring currency positions. The Group further manages this risk by maximizing foreign currency earnings and holding foreign currency balances.

As at 31 December 2017, the Group had net foreign currency liabilities of US\$1 Million which were subject to foreign exchange rate changes as follows:

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

29. CAPITAL AND RISK MANAGEMENT (Continued)

a) Market risk (Continued)

ii. Currency risk (continued)

Concentrations of currency risks

	The Group	The Company	
	2017 US'000 \$	2017 US'000 \$	2016 US'000 \$
Foreign currency financial assets:			
Cash equivalents and investments	333,296	129,296	63,378
	333,296	129,296	63,378
Foreign currency financial liabilities:			
Payables and accruals	(448,419)	(443,290)	(386,151)
Short term loans	-	-	(1,390,711)
Borrowings	(889,676)	(889,676)	(1,132,988)
	(1,338,095)	(1,332,966)	(2,909,850)
Total net foreign currency liabilities	(1,004,799)	(1,203,670)	(2,846,472)

A significant portion of the Group's purchases are made using United States (US) dollars. The Group hedges against movement in the United States dollar principally by holding cash resources in that currency, prompt payment, when necessary, of foreign currency bills as they become due along with maximizing efforts to earn foreign currency by innovating marketing on-line to the Jamaican Diaspora community.

In accordance with accounting policies applied consistently, exchange gains and losses are recognized in the income statement when incurred.

	2017 J\$	2016 J\$
31 December 2017: exchange rate 1US\$	125.00	128.44

Foreign currency sensitivity analysis

The sensitivity analysis represents the impact on the profit or loss due to the movement in the US dollar exchange rate relative to the Jamaican dollar, with other variables remaining constant.

Due to the nature of the Group's operations and the very short term nature of balances denominated in currencies other than the Jamaican dollar, in the opinion of management there should be no material impact on the results of the Group's operations as a result of changes in foreign currency rates as sudden changes are promptly adjusted in the selling prices of the Group's imported products, especially bulk rice and red kidney beans that form a significant percentage of the Group's overall purchases.

A 5% (2016-5%) weakening of the Jamaican dollar, with all other variables remaining constant, in particular interest rates, would result in a loss of approximately \$6.2 Million to the Group if all outstanding foreign liabilities are settled at the depreciated rate of the Jamaican dollar. A 5% appreciation of the Jamaican dollar under similar circumstances would result in a profit of \$6.2 Million.

29. CAPITAL AND RISK MANAGEMENT (Continued)

a) Market risk (Continued)

iii. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Floating rate instruments expose the Group to cash flow interest risk, whereas fixed interest rate instruments expose the Group to fair value interest risk.

The Group invests excess cash in short-term deposits and maintains interest-earning bank accounts with licensed and reputable financial institutions. Short-term deposits are invested for periods of three (3) months or less at fixed rates and are not affected by fluctuations in market interest rates up to the date of maturity. Due to the fact that interest rates on the Group's short-term deposits are fixed up to maturity and interest earned from the Group's interest-earning bank accounts is immaterial, management is of the opinion there would be no material impact on the results of the Group's operations as a result of fluctuations in interest rates.

The Group incurs interest on its borrowings. These borrowings are at fixed rates and expose the Group to fair value interest rate risk. Interest rate fluctuations are not expected to have a material effect on the net results or shareholders' equity. The Group reviews its interest rate exposure arising from borrowings on an ongoing basis, taking into consideration the options of refinancing, renewal of existing positions and alternative financing. Management, as a policy, obtains fixed rate loans when interest rates are expected to rise and floating rate loans when interest rates are expected to fall but generally avoids variable rate borrowing instruments.

Interest rate sensitivity

The Group's interest rate risk arises from long-term borrowings and available-for-sale debt instruments. The sensitivity of the profit or loss is the effect of the assumed changes in the interest rates on profit before taxation based on floating rate borrowing and available-for-sale debt instruments.

The Group does not have any significant exposure to floating rate borrowings or on investments because the majority of the financial instruments carry fixed rates of interest to maturity.

29. CAPITAL AND RISK MANAGEMENT (Continued)

b) Credit risk

Credit risk is the risk that one party, which includes customers, clients and counterparties, to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Credit risk is an important financial risk for the Group's business and therefore management meticulously manages the Group's exposure to this risk.

The Group faces credit risk in respect of investment activities and its receivables from customers.

i. Cash, deposits and investments

Credit risk for cash, deposits and investments is managed by investing in mainly liquid securities and maintaining these balances with licensed financial institutions considered to be reputable and stable. Accordingly, management does not expect any counterparty to fail to meet its obligations. The Finance Director along with the Board of Directors performs monthly reviews of the investments and securities held as a part of their assessment of the Group's credit risk.

The maximum credit risk faced by the Group is the total of these balances reflected in the financial statements. No provision for impairment is deemed necessary.

ii. Receivables

Credit risk for receivables is mitigated by stringent credit reviews and approval of limits to customers as well as regular credit evaluation of customers. Appropriate credit checks, references and analyses are undertaken in order to assess customers' credit risk profile prior to offering new credit or increasing existing credit limits. Many of the customers who are experiencing cash flow difficulties and are exceeding their credit limits are identified and the appropriate actions taken. Key Performance Indicators are reviewed regularly, including cash collected, average debt collection period, percentage of customers with overdue balances and debts deemed uncollectible. Credit limits for all customers inclusive of payment history and risk profile, are reviewed annually before renewal of credit facilities.

b) Credit risk (Continued)

ii. Receivables (Continued)

Aging analysis of trade receivables that are past due but not impaired

Trade receivables that are less than 90 days past due are not considered impaired. As of 31 December 2017, trade receivables of \$116,378,162 (2016 - \$106,333,778) were reviewed for impairment and a provision of \$31,180,720 (2016 - \$30,748,720) was considered necessary.

Management continues to critically review this position as they are aware that many of their customers who are retailers and wholesalers are experiencing difficult economic circumstances. The ageing analysis of these trade receivables is as follows:

	The Group		The Company	
	2017	2017	2017	2016
	\$'000	\$'000	\$'000	\$'000
Past due 31 to 60 days	61,627	52,930		7,698
Past due 61 to 90 days	4,034	4,033		5,092
Past due over 90 days	50,715	49,369		65,878
	116,378	106,333		78,669

Management, based on past experience, does not consider that any additional provision is required for long outstanding balances due to the Group or Company, especially those over 90 days

Exposure to credit risk for trade receivables

The following table summarizes the Group and Company's credit exposure for trade receivables at their carrying amounts, as categorized by customer sector.

	The Group		The Company	
	2017	2017	2017	2016
	\$'000	\$'000	\$'000	\$'000
Supermarket chains	70,946	70,946		54,106
Wholesale and retail distributors	119,697	119,697		92,594
Government entities	8,793	8,793		2,840
Manufactures	60,711	-		-
Other	82,278	82,278		104,081
	342,425	281,714		253,623
Overseas	5,477	5,477		6,708
Total (see note 18)	347,902	287,191		260,331

Overseas customers mainly relate to customers in the United States and United Kingdom and represent approximately 1.6% (2016 - 2.6%) of the total balance. The currencies of these countries are considered stable and consistently appreciate against the Jamaican dollar and no risk of any significant loss is anticipated in this category of overseas customers.

There is no change from the prior year in the nature of the Group's exposure to credit risk or the manner in which it manages and measures the risk.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

29. CAPITAL AND RISK MANAGEMENT (Continued)

b) Credit risk (Continued)

iii. Total exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was \$705,564,144 (2016 - \$850,773,022) representing the balances as at 31 December 2017 for cash and short-term deposits, investments and receivables as reported in the statement of financial position of the Group.

c) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group manages its liquidity risk by maintaining an appropriate level of resources in liquid or near liquid form to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group's liquidity management process, as carried out within the Group and monitored by the Finance Director and Board of Directors, includes:

- i. Monitoring future cash flows and liquidity on an ongoing basis. This incorporates an assessment of expected cash flows and the availability of high grade collateral which could be used to secure funding if required.
- ii. Maintaining a portfolio of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow.
- iii. Maintaining committed lines of credit.
- iv. Managing the concentration and profile of debt maturities while optimizing cash returns on investments.

At 31 December, 2017, the Company's three (3) largest credit suppliers amounted to approximately 25% (2016 - 32%) of the total annual purchases of the Company for the year ended 31 December 2017. Management continues to try to diversify the base of its credit suppliers on a regional basis as well as within intra-geographical regions within the markets in which the Company's major suppliers operate. In addition, the Company's supply chain has been expanded through forging of a new relationship with a major international commodity broker who helps to reduce the risk of depending on a few major suppliers.

The Group also has access to lines of secured credit to facilitate payments to major suppliers according to agreed credit terms should the Group at any time have insufficient cash resources to settle its obligations as they fall due.

c) Liquidity risk (continued)

Undiscounted contractual cash flows of financial liabilities

The Group's financial liabilities comprise long-term loans, payables and accruals, based on contractual undiscounted payments which are due as follows:

Maturity Profile of the Group
2017

	Within 1 year	Within 1 to 5 years	Over 5 years
	2017 \$'000	2017 \$'000	2017 \$'000
Long-term loans	258,766	754,317	-
Short term loans	29,976	-	-
Bank overdraft	17,949	-	-
Payables and accruals	791,036	-	-
Total	1,097,727	754,317	-

Maturity Profile of the Company
2017

	Within 1 year		Within 1 to 5 years		Over 5 years	
	2017 \$'000	2016 \$'000	2017 \$'000	2016 \$'000	2017 \$'000	2016 \$'000
Long-term loans	256,527	33,706	746,744	620,639	-	-
Short term loans	29,975	224,272	-	-	-	-
Bank overdraft	17,949	56,740	-	-	-	-
Payables and accruals	780,475	772,033	-	-	-	-
Total	1,084,926	1,086,751	746,744	620,639	-	-

Assets available to cover financial liabilities include cash, short term deposits and available-for-sale investments.

d) Reputational Risk

The Group is engaged in a business that principally distributes basic food items and flavours to the general consuming population, and its reputation is critical within the market place. The Group's management endeavors at all times to be ethical and adopts international best practices especially with regard to bulk frozen meats and other bulk commodities such as rice and red kidney beans.

The Group also ensures that the necessary sanitary standards are maintained to guarantee that regular audits by the Bureau of Standards are successfully undertaken. In addition, customer audits are undertaken to facilitate continuous improvement and efficient customer delivery services.

Customer complaints are promptly and properly investigated and appropriately assessed and transparency is maintained; where necessary customers are promptly compensated if they have suffered loss. Management considers the Group's reputation secured as they ensure that events that may damage its reputation are immediately investigated and the appropriate action taken to deal with the matter in a manner that satisfies the complainant.

Derrimon Trading Company Limited

Notes to the Financial Statements

31 December 2017

30. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial instruments that, subsequent to initial recognition, are measured at fair value are grouped into level 1 to 3 based on the degree to which the fair value is observable. The fair value of a liability reflects its non-performance risk.

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical instruments. The fair value of financial instruments traded in active markets is based on quoted market prices at the yearend, 31 December 2017. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets is the current bid price.

At 31 December 2017, these instruments are quoted investment securities (Note 15) which are grouped in level 1.

At the reporting date, the Company's financial assets and liabilities were reported at fair values and there was no necessity to estimate values using present value or other estimation and valuation techniques based on market conditions existing at statement of financial position date.

The Group has no financial assets grouped in levels 3.

The following methods and assumptions have been used in determining fair values:

- i. The face value, less any estimated credit adjustments for financial assets and liabilities with a maturity of less than one year are estimated to approximate their fair values. These assets and liabilities include cash and bank balances, short term investments, trade receivables and payables.
- ii. The carrying values of long term loans approximate their fair values, as these loans are carried at amortised cost reflecting their contractual obligations and the interest rates reflective of current market rates for similar transactions.

31. COMMITMENTS

As at the date of the signing of the financial statements, there has not been any approval for any material committed capital expenditure. These financial statements do not include any provision for capital expenditure commitments.

32. CONTINGENT LIABILITIES

In the normal course of business, the Group is subject to various claims, disputes and legal proceedings. Provision is made for such matters when, in the opinion of management and its professional advisors, it is probable that a payment will be made by the Group, and the amount can be reasonably estimated.

At the year end, the Group had no significant outstanding legal matters being pursued in the Courts. In addition, representations from the Managing Director along with the Group's attorneys indicated that they were not aware of any potential contingent liability that may negatively affect the Group.

33. SUBSEQUENT EVENTS

As at 28 February 2018, the date of approval and signing of these financial statements the directors reported that:

- (i) At a meeting of the Board of Directors on 27 February 2018, notice was given to hold an Extraordinary General Meeting, scheduled for 6 March 2018, where the directors of Derrimon Trading Company Limited will ask the shareholders to consider increasing the authorized share capital of the Company from 400,400,000 shares to 800,400,000 shares by the creation of an additional 400,000,000 shares. In addition, the directors will also approach the shareholders to considering amending the Company's Articles of Incorporation to accommodate the increase in the authorized capital.

The Company's current 125 Million preference shares fall due on 12 March 2018 and the directors' desire is to roll over the preference shares by using the new issue to pay out those that fall due.

- (ii) The Company's attorneys reported by letter dated 22 January 2018 as follows:

- There is a claim against the Company by an independent contractor for injury suffered while on Derrimon premises. The suit is being defended on the basis that the contractor did not heed warnings, and caused his own injuries. Mediation is being arranged to arrive at a settlement.
- There is a claim by the company against a customer who owed the Company approximately \$19.2 Million. Judgment in default has been obtained against the customer.
- They are not aware of any other outstanding claims or guarantees of indebtedness to others of which their firm's advice has been sought.

- (iii) As at 31 December 2017, under the 2016 Income Tax (Amended) Act, as a result of the listing of both the Company and its subsidiary on the Junior Market of the Jamaican Stock Exchange, income tax remissions amounted to approximately 138 Million. Should the companies default on any of the Junior Market requirements of listing, the total income tax waived will crystallize and be immediately payable to Tax Administration Jamaica.

- (iv) Subsequent to the year end, the Group entered into discussions with financial institutions to obtain a long term consolidating loan of approximate \$650 Million which forms a part of its long term growth and financial strategy.
